Address and Contact Information

Overview and Program Objectives

Since 1997, GRIPS the Tax Course in the Public Finance program at GRIPS has been offering master's degree to nurture promising tax officials from developing countries. The program was established as part of the Partnership Programs supported by the Joint Japan/World Bank Graduate Scholarship Program (JJ/WBGSP), which awards scholarships to mid-career professionals in the field of tax policy and administration.

The primary objective of the Public Finance Program is to provide scholars with the theoretical knowledge and practical skills essential for excelling as leaders in the field of customs and taxation. The program consists of two segments: an academic segment shared by tax and customs scholars, and a practicum segment dedicated to either tax or customs, depending on the scholar's chosen stream.

Public Finance Program

Tax Course

Customs Course

Degree offered : Master of Public Finance

Academic Segment

The academic segment provides a rigorous economics-oriented education that is aimed at the development of a broad understanding of the theoretical, empirical, and institutional aspects of customs/tax policy implementation and administration, within the context of developing countries' economic and social development. The academic segment culminates in the writing of a master's thesis facilitated by a course through which students develop their thesis with the input of academic supervisors and their peers, in which they have several opportunities to present their research.

Practicum Segment

The practicum segment of the Tax Course is administered by the faculty of the National Tax College (NTC), which is a training institution of the National Tax Agency (NTA) of the Ministry of Finance, in conjunction with the officials at the NTA. It involves weekly workshops and lectures; field trips to regional taxation bureaus; and the preparation of research papers. These experiences give students opportunities to enhance their learning on practical, administrative, legal, and institutional issues, thus integrating practical experience with their formal learning.

Outline of the Curriculum

One academic year at GRIPS is composed of four terms: fall (16 weeks), winter (8 weeks), spring (16 weeks), and summer (8 weeks).

Formal Academic Program

The formal academic segment of the master's program begins in October. It starts with focused instruction in the foundational skills of micro - and macroeconomics, as well as quantitative analysis. It then moves on to a range of applied topics that help students in understanding how to design, implement, and evaluate public policies – tax policy in particular – in accordance with development strategies. Topics include public finance, international economics, development economics, human resource management, and tax laws. Refer to the list of course offerings and the flow chart for the 2023-2024 on the following pages.

In addition to the required and strongly recommended elective courses, students can choose freely throughout the year from any of the extensive list of courses offered at GRIPS. Along with economics courses, GRIPS also offers numerous courses in various academic areas that are conducted in English. These range from public administration, political science, international relations, mathematical science, data science and social engineering, to a diverse range of interdisciplinary fields. Students can also choose to enroll in the Japanese language courses offered throughout the year at various levels of proficiency, although credits earned in these courses cannot count towards the degree.

Practicum Program

The practicum, which starts in October and continues until the end of June, involves lectures and workshops that instruct students on the Japanese tax system, tax law, and tax administration, as well as international taxation and tax treaty. It also involves several visits to regional taxation bureaus, tax offices, and tax counsel offices, where students observe actual national tax services and learn about Japan's national tax system and administration. In addition, with the assistance and guidance of NTC faculty, students prepare research papers to analyze issues/problems faced by the tax administration of their respective home countries.

Master's Thesis

Each scholar is required to produce a policy paper as their master's thesis, focusing on a topic related to public finance and taxation with an emphasis on policy discussion. As part of this process, scholars must enroll in the "Thesis seminar," which is a mandatory course providing personal instruction in a supportive environment. During the seminar, scholars receive guidance from a faculty advisor and have multiple opportunities to present both their ongoing and completed research papers. Additionally, scholars are expected to participate in courses offered by the GRIPS Center for Professional Communication, which focus on enhancing their academic writing skills.

Course Offerings for 2023-2024

		Course No.	Course Name	Term	Credit	
I Required Courses		PFP2520E	International Taxation of Japan	Fall	2	
		PFP5010E	Practicum at the National Tax Agency	Fall through Spring (Session I)	8	
		ECO1000EB	Microeconomics I	Fall (Session I)	2	
		ECO3102E	Public Finance I	Winter	2	
		ECO4120E	Thesis Seminar	Fall through Summer	4	
		ECO4130E	Tutorial (PF)	Fall	1	
		GEN5020E	The World and the SDGs	Fall	1	
III Elective Courses	Highly Recommended	ECO1060EA	Macroeconomics I	Fall (Session I)	2	
		ECO2000EB	Microeconomics II	Fall (Session II)	2	
		ECO2020EB	Government and Market	Winter	2	
		ECO2720EB	Introduction to Applied Econometrics	Fall	2	
		ECO3110E	Fiscal Reform in Japan	Fall	2	
		ECO3130E	Economics of Tax Policy	Winter	2	
		ECO3160E	Reform of Economic Policy in Japan	Spring	2	
		ECO3400E	International Trade	Spring (Session I)	2	
		ECO3840EB	Development Economics	Winter	2	
		PAD2560E	Human Resources Management	Spring	2	
	PFP2500E	Multilateral Trading System and Customs Administration	Winter through Spring	2		
		ECO1600E	Monetary Economics (Money and Banking)	Fall	2	
		ECO2060EA	Macroeconomics II	Fall (Session II)	2	
		ECO2760E	Applied Time Series Analysis for Macroeconomics	Winter	2	
		ECO2770E	Applied Econometrics	Winter	2	
		ECO2780E	Applied Econometrics Practice	Winter	2	
		ECO3000E	Mathematics for Economic Analysis	Fall	2	
		ECO3104E	Political Economy	Spring	2	
		ECO3200E	Economics of Law	Spring	2	
		ECO3710E	Time Series Analysis	Spring (Session I)	2	
		ECO3860E	Development History of Asia: Policy, Market and Technology	Spring	2	
		PAD2670E	Public Expenditure Management	TBA	2	
		MOR1030E	Introduction to Data Science	Fall(Session I)	2	
		MOR2020E	Data Science in Practice	Fall (Session II)	2	
			*Selected Topics in Policy Studies I - IV			
			Courses not listed in this table			
X Others	**Courses offered by the Center for Professional Communication					

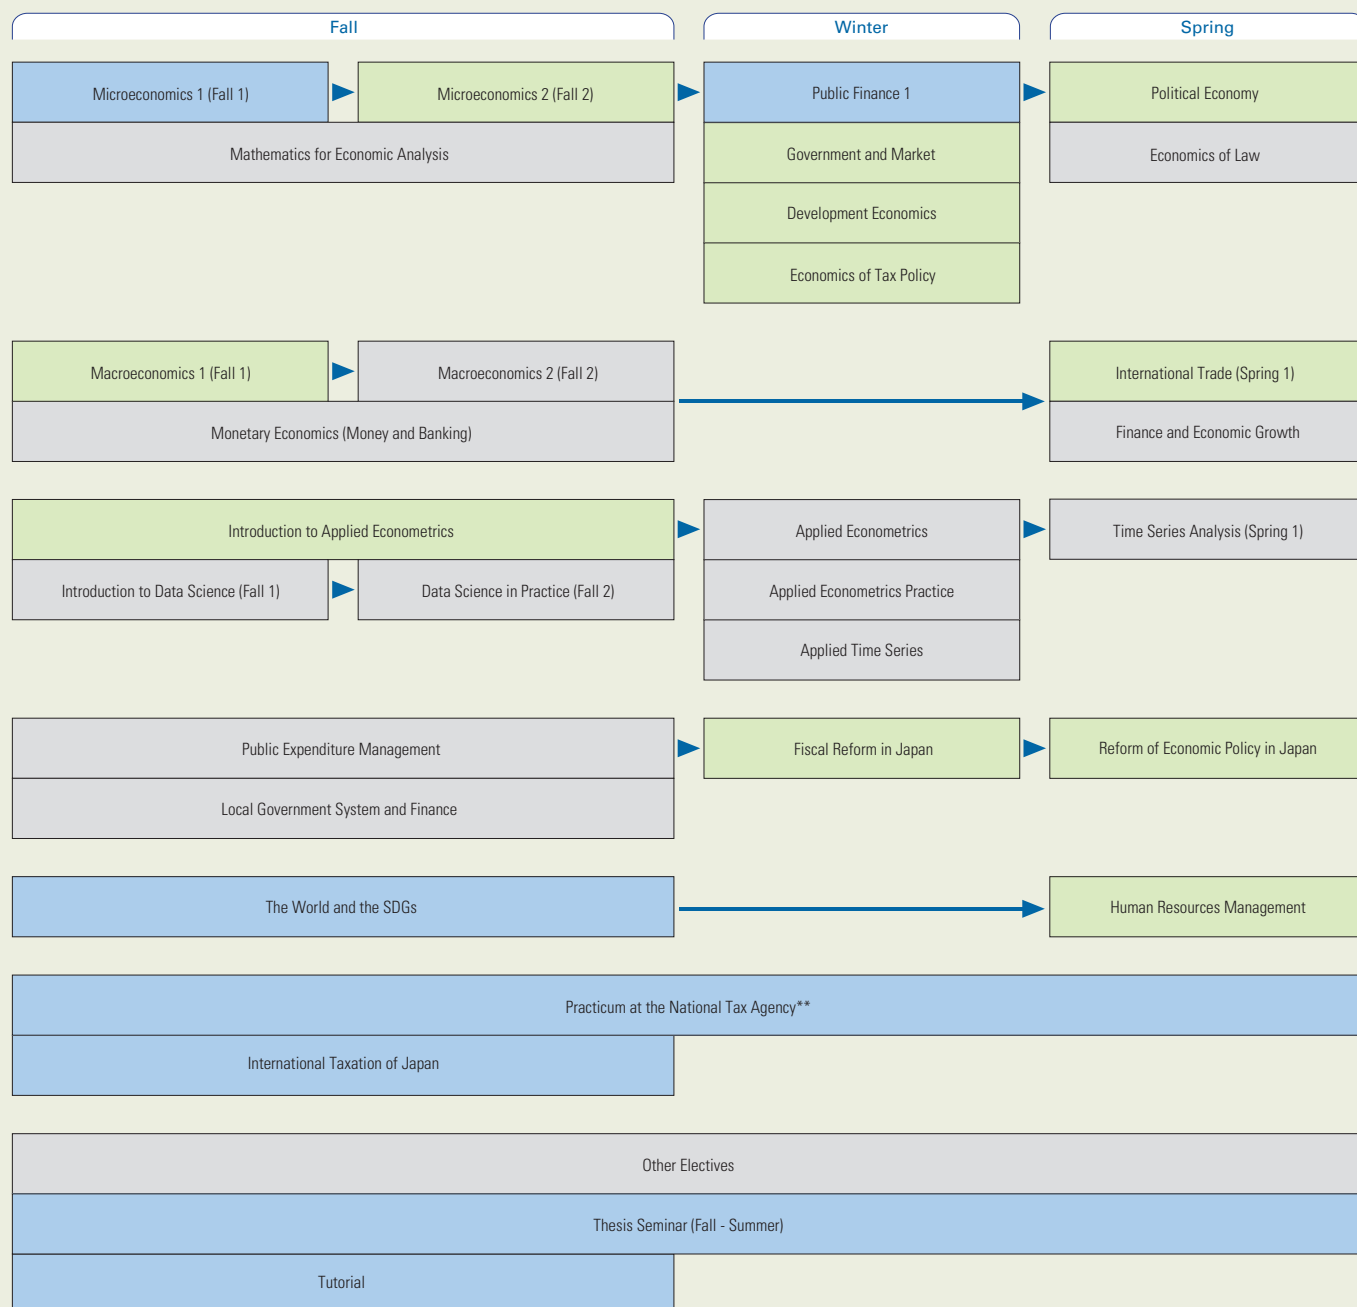

Notes:

1. Graduation Requirements: Students must complete a minimum of 34 credits and meet the following requirements:
 - (a) Tax students must complete the following courses: PFP2520E, PFP5010E, ECO1000EB, ECO3102E, ECO4120E, ECO4130E and GEN5020E from Category I.
 - (b) Customs students must complete the following courses: PFP5110E, PFP5120E, PFP5130E, PFP5210E, ECO1000EB, ECO3102E, ECO4120E, ECO4130E and GEN5020E from Category I.
2. Courses offered in the Program are subject to change.
3. Students cannot take courses conducted in Japanese without Director's approval. If a student takes the same course in both English and Japanese, only one course (2 credits) will count toward the degree.
4. *Course Number, Instructor, and Term for these courses will be announced later when the course is offered.
5. **Credits earned in these courses cannot count toward the degree.

Degree Requirements

- The curriculum is comprised of two course categories: required courses and elective courses. In the elective courses, we have identified 11 courses that are highly recommended.
- Students in the Tax Course must complete a minimum of 34 credits, 20 of which are made up of required courses.
- Besides the minimum credit requirements stated above, students must complete and obtain approval for a master's thesis.

Flow Chart for Core and Other Major Elective Courses

indicates subjects that are required.
 indicates subjects that are strongly recommended

Brief Core Course Descriptions (Academic Segment)

Followings are for category I and Highly Recommended Courses only. For other courses, see <http://www.grips.ac.jp/en/education/information/syllabus/>

Public Finance I

This course will provide a comprehensive understanding of how governments manage their finances and make economic decisions that impact the well-being of their citizens. Public finance explores the intricacies of government revenue, expenditure, and debt, shedding light on the complex mechanisms that shape fiscal policies. The course will also discuss the economic implications of government interventions as well as its crucial role in economic growth and welfare.

The World and the SDGs

The sustainable development goals (SDGs) adopted by the United Nations General Assembly in September 2015 present challenges that we all have to face, both globally and locally. This course, mandatory for all GRIPS students, offers an introductory overview of the state of the world in the 21st century through an examination of the historical development of the world system within the global eco-geological setting, and provides basic knowledge of the social, economic, political and ecological issues that are now being targeted by the SDGs. Throughout their participation in this course, the students are expected to think and re-think their major research focus at GRIPS within the wide perspective embodied in the SDGs.

Microeconomics I

This is an introductory course on microeconomics. It covers basic economic assumptions and concepts used to define behaviors of consumers and producers in the market. The course consists of three parts: consumer theory, producer theory and the equilibrium in a competitive market. In the consumer theory, preference, utility, budget constraints, utility maximization and demand curves will be introduced. In the producer theory, production and cost functions, profit maximization, and supply curves will be discussed. Finally, the concept and the determination of the equilibrium will be discussed.

Microeconomics II

Based on certain understanding of materials taught in Microeconomics I, this course expands the basic framework. This course covers various market structure such as monopoly, oligopoly, and monopsony using the framework of game theory. Then course also introduces several cases where the market fails to achieve efficiency and how to address those market failures.

Macroeconomics I

This is a first course in the macroeconomics sequence. The course will cover broad topics relating to major macroeconomic variables; e.g. money supply, inflation, unemployment, economic growth. Given that these variables can be changed over time and different across countries, we will use simple macroeconomic models to illustrate the underlying mechanism behind the change and difference. The focus of this course is on the long-run equilibrium.

Macroeconomics II

This is the second course in the macroeconomics sequence. It will cover broad topics, mostly related to short-run economic behavior.

Introduction to Applied Econometrics

This course helps students to understand applied econometric methods and to foster the skills needed to plan and execute their own empirical projects in economics. Topics include ordinary least squares estimation, panel data and fixed effects estimation, instrument variable estimation, difference-in-differences, and regression assessment. We study many examples and STATA package for actual estimation and application.

Government and Market

The objective of this course is to acquire an in-depth understanding of the economic roles of government in a modern market-based society. We seek to understand what governments should do (or should not do), what should be left to the market and to private individuals, and what would be the consequences of government policies. This course will help you to apply the principles and knowledge of microeconomics to current policy issues.

Fiscal Reform in Japan

The course discusses the current problems with Japan's public finance policy and the necessary reforms to address them. Japan's public finance faces several important issues such as huge government debt and rapid population aging. The course will discuss a fiscal consolidation plan, implementation of social security reform as well as medical care system and pension system.

Reform of Economic Policy in Japan

This course covers issues related to the formulation of economic policy. The main topics discussed include the current state of the Japanese economy and its weaknesses. Japan's economy has three major weaknesses: lagging in globalization, low productivity in the service sector, and inflexibility in the labor market. Knowledge of Japan's economic structural reforms towards increased productivity and labor market reform will be useful to many Asian countries which are experiencing or will experience rapid population ageing. Also, under discussion will be the role of government from the view point of economic growth.

International Trade

This course introduces the basic concepts, tools and information required for an understanding of the flow of goods across countries, i.e. international trade. We will investigate why nations trade, what they trade, and who gains from international trade. We will also analyze countries' motives for regulating international trade and the effect of regulatory policies on economic welfare.

Development Economics

This course aims to familiarize students with development problems and issues that are fundamental to developing countries.

Human Resources Management

Knowledge of Human Resource Management (HRM) has become critically important for the managers of public sector organizations. By working within a framework of academic analysis and through the practical experience of the instructor, students are expected to acquire managerial expertise and a practical sense of how public sector organizations are reformed.

Economics of Tax Policy

In this course, the students will acquire an in-depth understanding of the principles of taxation and the economics tools for analyzing tax systems and policy. In particular, students will gain hands-on experience conducting academic research using the econometric technique learned during the program. The overall goal of this course is that the students will be able to apply these principles, tools, and skills to work with current tax policy issues and fundamental policy reform options.

Political Economy

This course reviews the recent development in the literature on political economy, by introducing both theoretical and empirical studies on the frontier of the literature. The goal of the course is to develop students' ability to identify interesting and important questions in the related applied economic fields and to present these ideas effectively.

Brief Core Course Descriptions (Practicum Segment)

International Taxation of Japan

Governmental agencies take actions on people in general and some of them are dissatisfied with them. They believe that those actions are unjust or unlawful and dispute them in administrative review organs and courts. In the field of taxation, such a situation arises often because many taxpayers are aggrieved over the tax reassessments made on their returns. While it is true that tax reassessments are made more often on some issues than others.

In this class, we try to take a look at various causes for such disputes and make cross-country comparisons. Such disputes often arise because taxpayers try to avoid tax and there is opacity in the application scope of relevant tax provisions. Also, the class looks into how various disputes between people and the government are handled/resolved in various countries and how those differences among countries affect the number of disputes and the costs on disputants while much focus is to be on tax disputes.

Practicum at the National Tax Agency

This course comprises of lectures/workshops that are offered weekly from fall through spring. The sample schedule of this course is listed below. The aim of this course is to provide tax officials with knowledge on Japanese tax systems; tax law (concerning income tax and corporation tax etc.); and administration (tax examination, taxpayer service, revenue management and collection); so that they may contribute to the improvement of tax

administration in their respective countries. NTA officials and NTC faculty give lectures on practical aspects of Japanese tax administration. Students will visit the Regional Taxation Bureau, Tax Office, Tax Counsel Office, etc., to broaden the knowledge they acquire in the classroom. Students are also assigned a research paper that analyzes issues/problems faced by their home country's tax administration, with assistance and guidance from the NTC faculty. Students are thus strongly recommended to bring with them any relevant data/research materials from home.

Sample Schedule of Practicum at the NTA

Date			AM (10:15-11:45)	PM (13:00-14:30 / 14:45-16:15)
Oct-23	23	Mon	Opening Ceremony Program Orientation	Country Report Presentation (1)(2)

2 About GRIPS

Message from the Dean

GRIPS was founded in 1997 as a stand-alone national graduate university focusing on policy studies. Future policy leaders and policy researchers from around the world gather here, making GRIPS an international hub for public policy research and education.

We offer Master's and Doctoral programs covering a broad range of areas, from economics, political science, public administration, and international relations to social engineering and mathematical science, and we encourage students and faculty to engage in interdisciplinary research.

GRIPS has a very international character in every respect, with more than two thirds of our students coming from overseas, from over 110 nations to date. Our faculty is also international and includes academics, public officials, and executives from private companies. The diverse backgrounds of our faculty create an ideal environment for students pursuing policy studies.

Reflecting the diverse backgrounds of our students and faculty, GRIPS aspires for cross-fertilization of academic disciplines and their application to real policy making and policy analysis. We welcome young people from all over the world to come to GRIPS to learn more about Japan and to engage in productive communication with each other. GRIPS' mission is to train and educate young, talented people to become national leaders with a genuine sense of social responsibility.

The Public Finance Program is an integral part of this mission. I hope you will join us.

Dean and Vice President
Nobuhiro Hosoe

GRIPS at a glance

The educational mandate of GRIPS is to cultivate high-level policy professionals and researchers. Our degree programs are designed to train students to envision a wide range of solutions to various policy issues.

OUR MISSION	<ul style="list-style-type: none">•Cultivate future leaders in policymaking•Serve as an international center for policy research
STUDENT LIFE	<ul style="list-style-type: none">•Numerous scholarships available•Spacious campus located in the heart of Tokyo (Roppongi)•Modern & comfortable dormitories•Global community and network (about 60 countries)•Field trips and various cultural programs offered
ACADEMIC	<ul style="list-style-type: none">•1- and 2-year master's programs•Integrated 5-year doctorate programs•Various doctorate programs•Distinguished faculty•Classes taught fully in English
FUTURE CAREERS	<ul style="list-style-type: none">•Policy-making career tracks (government official, private sector, international organizations, academia, etc.)•Active alumni for international networking

Programs offered at GRIPS for international students

For details, visit: http://www.grips.ac.jp/en/education/inter_programs/

Brief History of GRIPS

- 1977** Graduate School of Policy Science (GSPS) established at Saitama University; the predecessor of GRIPS
- 1997** National Graduate Institute for Policy Studies (GRIPS) established
- 1999** Relocated to Wakamatsu-cho campus in Tokyo (Shinjuku)
- 2005** Relocated to current campus in Roppongi

3 Student Support

One unique aspect of GRIPS is our extensive support system for assisting students in their daily living. We consider this aspect of your lives to be every bit as important as your academic life, especially for foreign scholars unfamiliar with Japan. As international students have comprised, on average, about 60% of the GRIPS student body over the last 20 years, we have developed comprehensive services to assist students in their day-to-day living.

The Student Office organizes orientation programs for incoming students and assists arriving international students in getting organized and settled in Japan. It also organizes a number of social events and activities, including field trips and concerts. The Student Office also functions as a hub to promote meaningful interaction and understanding between Japanese and foreign nationals.

Faculty

GRIPS boasts a nearly 200 member faculty from a variety of backgrounds. Many of them hold doctorate degree from outside of Japan, and many have served as central and local government officials, diplomats, bankers or business executives. This enables an effective combination of rigorous academic courses complemented by professional expertise and experience.

For more on our faculty members, please see <http://www.grips.ac.jp/en/about/directory/>

Accommodation

Accommodation is provided in the Tokyo International Exchange Center (TIEC), operated by the Japan Student Services Organization (JASSO), in GRIPS International House, or in private apartments recommended by the GRIPS Student Office.

Tokyo Academic Park Residence Halls

In the bayside area, built in 2001 by the Ministry of Education, Culture, Sports, Science and Technology (MEXT)
Room Types: Single, Couple, Family

GRIPS International House I

In Nakano, built in 2009
Room Types: Single, Couple

GRIPS International House II

In Nakano, built in 2009
Room Types: Single, Couple

Resources

Center for Professional Communication

The mission of the Center for Professional Communication is to support GRIPS students, faculty, and staff in developing effective professional communication skills and competencies needed to communicate productively in an environment of multiple stakeholders. To this end, we offer a range of instruction and support in fundamental areas of professional communication in English and Japanese, including policy paper writing, professional speaking, grant proposal writing, and digital communications. We also provide opportunities for cultural and academic exchanges through a self-access learning center, organize seminars and special events related to all aspects of professional communication, and prepare customized materials for students and staff on academic and professional writing and language learning.

Library

- Extensive collection of publications in the field of policy studies, collected from around the world
- Collection contains over 190,000 volumes, including reference books, statistical collections, working papers, and government documents
- Large collections of periodicals that include more than 12,000 journals, many of which are available online
- Well-trained staff are equipped to respond to research-related requests

Center for Data Science

CDS is conveniently located in room C505 on the 5th floor at the end of the corridor that opens onto lecture rooms A-H. The main missions of CDS are: (1) To provide follow-up on data science-related classes; (2) To provide consultations for students and researchers who use data science in their research; (3) To provide training sessions in the use of software for data science, including R language and Stata, and in the mathematics necessary for a sufficiently deep understanding of the theoretical aspects of data science; (4) To promote joint research relating to data science within and outside GRIPS; and to hold related symposiums; and (5) To develop GRIPS's data archives.

Facilities

Student Rooms and IT Support Center

- Each student is provided with a study space, accessible 24 hours a day
- A computer help desk is open to all students during regular working hours

Health Services Center

- In-house health clinic
- Nurse on duty daily, doctor available several days a week
- Provides medical advice, basic medical examinations
- Will refer to an appropriate hospital or specialist when necessary

Gym

- Running machines and training equipment
- Showers and washing machines

4 Admissions

In 1987, the World Bank, in collaboration with the government of Japan, launched the World Bank Graduate Scholarship Program, which is currently referred to as JJ/WBGSP. The Tax Course within the GRIPS Public Finance Program has received support from this program and has been recognized as a Participating Program of JJ/WBGSP ever since. Annually, the program grants scholarships to individuals from eligible developing countries, enabling them to pursue graduate studies at GRIPS. Additionally, the program may consider applicants who have secured alternative funding sources, such as scholarships provided by their home countries.

Eligibility Criteria

Before you apply for GRIPS, please carefully read the full description of eligibility criteria on the Public Finance Program web page at http://www.grips.ac.jp/en/education/inter_programs/finance/.

Details of the JJ/WBGSP scholarship are also available on that page.

Irrespective of the funding source, to be eligible for admission to the Public Finance Program (Tax Course), the applicant must meet the following criteria:

1. Have a bachelor's degree or its equivalent from a recognized, accredited university of the highest standard.
2. Be proficient in English (admission priority will be given to applicants who have a TOEFL iBT score of 79 or higher, or an IELTS Academic score of 6.0 or higher).
3. Be a full-time government tax official from a developing country.
4. Have at least 3 years' work experience March 3, 2023 in tax policy and administration and able to show that such work experience is related to development-related topics indicated by the World Bank.
5. Show promise of continuing his/her career in tax policy and administration.

For Those Seeking a JJ/WBGSP Partner Program Scholarship

Those seeking a JJ/WBGSP Partner Program scholarship must first apply for admission to GRIPS. GRIPS will make a short list of candidates and send it to the World Bank for the final selection.

The short listed-candidates will be required to submit online applications directly to the World Bank.

Additional Criteria for JJ/WBGSP Scholarship	Scholarship Coverage
<ul style="list-style-type: none">● Be a national of a World Bank member country that is eligible to receive Bank financing● Have never before received any scholarship funding towards a graduate degree or its equivalent from sources funded by the government of Japan	<ul style="list-style-type: none">● Monthly stipend: JPY306,910● Application fee, admission fee, and tuition● An economy-class air ticket from your home country to Japan upon enrollment at GRIPS and an economy-class air ticket from Japan to your home country upon completion of your studies at GRIPS● Travel allowance: USD500 equivalent upon arrival, USD500 equivalent upon completion of your study
For full description, please refer to the Public Finance Program web page at http://www.grips.ac.jp/en/education/inter_programs/finance/	

JICA scholarship is also available

How to Apply

5 Alumni

One of the greatest resources and joys of studying at GRIPS is the diversity of the student community. The connections you make at GRIPS are a valuable part of your degree. The GRIPS Alumni Network will ensure they are lifetime bonds by keeping you in touch with fellow alumni and the school.

As a GRIPS graduate, you join an impressive network of around 5,400 alumni who are actively shaping future policies in more than 115 countries around the world. We offer a variety of ways to remain engaged with GRIPS and strengthen your ties with fellow alumni. These include alumni reunions, seminars, a searchable alumni directory and online networking opportunities utilizing social media such as Facebook and LinkedIn.

Alumni of the Public Finance Program (Tax Course)

Since its launch in 1997, one hundred and twenty four (124) students have graduated from the Public Finance Program's Tax Course with a Master's degree (as of September 2023). All were mid-career tax officials when first admitted into the program. The majority of JJ/WBGSP scholars who graduate return to their home countries and pursue careers in tax administration: As of September 2023, most of our graduates are still working in tax-related government agencies in their home countries.

Voices of the Alumni

Usman Asghar (Pakistan, 2012)

Position: Additional Commissioner Inland Revenue

Affiliation: Federal Board of Revenue, Ministry of Finance

The Public Finance Program at GRIPS has been thoughtfully structured to seamlessly blend fundamental theoretical concepts and principles of public economics with practical insights from the tax department of a developed country, namely Japan. Participants hailing from developing countries not only gain the ability to assess the shortcomings in their taxation systems, but their enriched knowledge also empowers them to pinpoint specific deficiencies within their tax departments, such as institutional weaknesses, outdated tax policies, misaligned tax structures, and insufficient direct taxes, among other issues. The program, including courses like 'International Taxation of Japan,' also equips participants to confront the evolving challenges of taxation in today's interconnected global economy.

In addition to the rigorous academic curriculum at GRIPS, students benefit immensely from engaging interactions with their peers from around the world. In totality, studying at GRIPS, a premier Public Policy institution in Asia located in Tokyo—a dynamic economic center that embodies rich cultural diversity—undoubtedly promises to be an unforgettable and rewarding experience for those fortunate enough to secure admission to the Public Finance Program.

Tandekile Mkiwa (Zimbabwe, 2016)

Position: Revenue Officer

Affiliation: Zimbabwe Revenue Authority

Studying at GRIPS was a once-in-a-lifetime opportunity for which I am still immensely grateful. The institute fostered professionalism throughout the program, laying a strong academic foundation for me. Particularly impactful was the Practicum at the National Tax College (NTC), which offered a comprehensive blend of theoretical and practical learning, alongside economics-related courses.

Through the NTC Practicum, I gained insights into the administrative operations of various tax agencies, tackled challenges encountered in tax work, and honed problem-solving skills. Among the courses I relished were Development Economics, Mathematics for Economic Analysis, and Strategy for Economic Development, as well as the NTC Practicum—particularly the hands-on experience with tax treaties, which I found most engaging. The exploration of international taxation opened up new perspectives for me, serving as an enlightening revelation.

Successful completion of the program necessitates dedication and active participation. Beyond its educational facets, GRIPS champions cultural diversity. The institute boasts a classic ambiance, abundant educational resources, accomplished professors, and a responsive administrative staff, including a functional clinic.

Dy Channthy (Cambodia, 2018)

Current Position: Deputy Bureau Chief of Immovable Property Tax Office

Affiliation: Deputy Bureau Chief of International Tax Law Office

GRIPS has empowered me to emerge as a potential leader within my organization, the General Department of Taxation. Since graduating from GRIPS, I have gained the confidence to contribute as a policymaker within my organization. Beyond imparting knowledge and skills, GRIPS has offered me a sense of belonging to a supportive community, akin to a warm family.

To all my colleagues aspiring to become leaders within their respective organizations, I wholeheartedly recommend considering GRIPS as a pathway to achieve their goals. Let's stay connected and continue our journey toward professional growth.

Najibullah Nor Isak (Somalia, 2020)

Current Position: Fiscal Economist

Affiliation: Ministry of Finance, Somalia

The National Graduate Institute of Policy Studies (GRIPS) stands as a remarkable institution where high-quality education seamlessly merges with practical experience. The caliber of professors surpassed my expectations; they encompassed academics who could harness your potential, individuals with technical and administrative prowess in the public sector, and even those who had played significant roles in shaping policy decisions in Japan, including former ministers. Learning from such a diverse and accomplished faculty was truly exceptional.

Furthermore, I was impressed by three key aspects: (1) the abundant resources available at GRIPS, including its people, well-designed campus facilities, and library, (2) the enriching practicum at the National Tax College, and (3) the experience of navigating the Tokyo Tax Library while crafting policy papers.

These collective experiences have equipped me to contribute effectively to the modernization journey of Somalia's tax system, spanning aspects of revenue administration and the reformation of tax laws. Moreover, this education has primed me to spearhead other pivotal components of fiscal policy evaluation, tax policy analysis, revenue forecasting for budget purposes, and at times, representing the Ministry of Finance in engagements with the Parliamentary Financial Committee.

Address and Contact Information

Getting to GRIPS

The GRIPS building is located in the center of Tokyo, conveniently accessible by public transport. Both Nogizaka Station on the Chiyoda Line and Roppongi Station on the Oedo and Hibiya Lines are within 10 minutes walking distance.
