# 1 Program Description

## Public Finance Program (Tax Course)

### Overview and Program Objectives

Since 1997, GRIPS has been offering a tax-related master’s degree in English through the Public Finance Program (Tax Course). The program was established as part of the Partnership Programs supported by the Joint Japan/World Bank Graduate Scholarship Program (JJ/WBGSP), which awards scholarships to mid-career professionals in the field of tax policy and administration. In 2000, the program was expanded to admit students with working experience in customs administration (Customs Course).

The major objective of the Public Finance Program is to provide students with the conceptual understanding and technical competence to become leaders in the area of taxation and customs. The curriculum is designed for government officials from developing countries, who are current professionals in either tax or customs administration. The program is a 12-month for Tax Course comprised of two segments: an academic segment common to tax or customs students, and a practicum segment that is conducted separately for tax or customs, respectively, depending on the student’s stream/concentration.

Public Finance Program

Tax Course

Customs Course

Degree offered : Master of Public Finance

### Academic Segment

The academic segment provides a rigorous economics-oriented education that is aimed at the development of a broad understanding of the theoretical, empirical, and institutional aspects of customs/tax policy implementation and administration, within the context of developing countries’ economic and social development. The academic segment culminates in the writing of a master’s thesis facilitated by a course through which students develop their thesis with the input of academic supervisors and their peers, in which they have several opportunities to present their research.

### Practicum Segment

The practicum segment of the Tax Course is administered by the faculty of the National Tax College (NTC), which is a training institution of the National Tax Agency (NTA) of the Ministry of Finance, in conjunction with the officials at the NTA. It involves weekly workshops and lectures; field trips to regional taxation bureaus; and the preparation of research papers. These experiences give students opportunities to enhance their learning on practical, administrative, legal, and institutional issues, thus integrating practical experience with their formal learning.

## Outline of the Curriculum

One academic year at GRIPS is composed of four terms: fall (16 weeks), winter (8 weeks), spring (16 weeks), and summer (8 weeks).

### Formal Academic Program

The formal academic segment of the master's program begins in October. It starts with focused instruction in the foundational skills of micro- and macroeconomics, as well as quantitative analysis. It then moves on to a range of applied topics that help students in understanding how to design, implement, and evaluate public policies -- tax policy in particular -- in accordance with development strategies. Topics include public finance, international economics, development economics, human resource management, and tax laws. Refer to the list of course offerings and the flow chart for the 2020-2021 on the following pages.

In addition to the required and strongly recommended elective courses, students can choose freely throughout the year from any of the extensive list of courses offered at GRIPS. Along with economics courses, GRIPS also offers numerous courses in various academic areas that are conducted in English. These range from public administration, political science, international relations, mathematical science, and social engineering, to a diverse range of interdisciplinary fields. Students can also choose to enroll in the Japanese language courses offered throughout the year at various levels of proficiency, although credits earned in these courses cannot count towards the degree.

### Practicum Program

The practicum, which starts in October and continues until the end of May, involves lectures and workshops that instruct students on the Japanese tax system, tax law, and tax administration, as well as international taxation and tax treaty. It also involves several visits to regional taxation bureaus, tax offices, and tax counsel offices, where students observe actual tax collection work and learn about administration and management of Japan's tax collection system. In addition, with the assistance and guidance of NTC faculty, students prepare research papers to analyze issues/problems faced by the tax administration of their respective home countries.

### Master's Thesis

There is one required course, Thesis Seminar, that students must enroll from fall through summer term, which are devoted to producing the master's thesis (or "policy paper") on a topic related to public finance. In this course, students are provided with personal instruction in an intimate environment, by a faculty advisor, and several opportunities to present both their ongoing and completed research papers. Students are supported in the writing process by mandatory Policy Proposal Writing and Thesis and Policy Proposal Writing courses, as well as through individual consultation with faculty members of the GRIPS Center for Professional Communication.

Course Offerings for 2020-2021

	Course No.	Course Name	Term	Credit
I Required Courses	PFP2520E	International Taxation of Japan	Fall	2
	PFP5010E	Practicum at the National Tax Agency	Fall through Spring (Session I)	8
	ECO1000EB	Microeconomics I	Fall (Session I)	2
	ECO3102E	Public Finance I	Winter	2
	ECO4120E	Thesis Seminar	Fall through Summer	4
	GEN5010E	Introduction to Public Policy Studies	Fall	1
	GEN5020E	The World and the SDGs	Fall	1
III Elective Courses	ECO1060EA	Macroeconomics I	Fall (Session I)	2
	ECO2000EB	Microeconomics II	Fall (Session II)	2
	ECO2020EB	Government and Market	Winter	2
	ECO2720EB	Introduction to Applied Econometrics	Fall	2
	ECO3103E	Public Finance II	Spring (Session I)	2
	ECO3110E	Fiscal Reform in Japan	Winter	2
	ECO3120E	Public Finance and Fiscal Policy	Fall	2
	ECO3130E	Economics of Tax Policy	Winter	2
	ECO3160E	Reform of Economic Policy in Japan	Spring	2

Notes:  
Courses offered are subject to change.  
\* Credits earned in these courses cannot count toward the degree.

Degree Requirements

- The curriculum is comprised of two course categories: required courses and elective courses. In the elective courses,we have identified 12 courses that are highly recommended.
- Students in the Tax Course must complete a minimum of 36 credits, 20 of which are made up of required courses.
- Besides the minimum credit requirements stated above, students must complete and obtain approval for a master's thesis.

Flow Chart for Core and Other Major Elective Courses

Blue box indicates subjects that are required. Green box indicates subjects that are strongly recommended

---

## Brief Core Course Descriptions (Academic Segment)

Followings are for category I and Highly Recommended Courses only. For other courses, see <http://www.grips.ac.jp/en/education/information/syllabus/>

### Introduction to Public Policy Studies

Public policy is studied in various fields of sciences by various approaches. Not only researchers but also professionals need to have a wide range of knowledge and keen interest in various aspects of public policy and related government and administrative systems. In view of such necessity, this course is organized to introduce students of public policy and public administration to the world of public policy studies. As an introduction, major subjects and issues in public policy studies are briefly discussed with reference to specific cases in Japan and other countries. In addition, students will be given practical training in the basics of research and academic writing. They will become familiar with the areas of concentration offered at GRIPS, learn the style and requirements of academic writing, and receive guidance on writing a research proposal. By the end of the course, students should have selected a concentration area and prepared a preliminary proposal for a policy paper.

### Public Finance

In this course, students will learn both expenditure side and revenue side analyses of public finance theory. Topics include impact of public debt, sustainability, public capital and growth, public goods, taxation and efficiency/income distribution, amongst others.

### The World and the SDGs

The sustainable development goals (SDGs) adopted by the United Nations General Assembly in September 2015 present challenges that we all have to face, both globally and locally. GRIPS students are expected to play leadership roles in their respective careers, and naturally they are required to have a sophisticated understanding of the urgent but complex nature of the challenges that the SDGs present. To that end, this course, mandatory for all GRIPS students, offers an introductory overview of the state of the world in the 21st century through an examination of the historical development of the world system within the global eco-geological setting, and provides basic knowledge of the social, economic, political and ecological issues that are now being targeted by the SDGs. The world is so complex and as the SDGs cover a broad spectrum of issues, so no single course is sufficient for examination of all the important issues. However, for an understanding of the inter-related nature of the SDGs, it is useful to have a brief overview of the prospects of the SDGs and of the attendant difficulties. Throughout their participation in this course, the students are expected to think and re-think their major research focus at GRIPS within the wide perspective embodied in the SDGs.

### Microeconomics I

This is an introductory course on microeconomics. It covers basic economic assumptions and concepts used to define behaviors of consumers and producers in the market. The course consists of three parts: consumer theory, producer theory and the equilibrium in a competitive market. In the consumer theory, preference, utility, budget constraints, utility maximization and demand curves will be introduced. In the producer theory, production and cost functions, profit maximization, and supply curves will be discussed. Finally, the concept and the determination of the equilibrium will be analyzed.

---

### Microeconomics II

Based on certain understanding of materials taught in Microeconomics I, this course expands the basic framework. This course first introduces the concept of uncertainty, and then explains about several cases where the market fails to achieve efficiency.

### Macroeconomics I

This is a first course in the macroeconomics sequence. The course will cover broad topics relating to major macroeconomic variables; eg. money supply, inflation, unemployment, economic growth. Given that these variables can be changed over time and different across countries, we will use simple macroeconomic models to illustrate the underlying mechanism behind the change and difference. The focus of this course is on the long-run equilibrium.

### Introduction to Applied Econometrics

This course helps students to understand applied econometric methods and to foster the skills needed to plan and execute their own empirical projects in economics. Topics include randomized controlled trials, regression and matching, differences-in-differences, instrumental variables, and regression-discontinuity designs. We study many examples and do a fair amount of number crunching ourselves. The mathematics of econometrics will be introduced only as needed and will not be a central focus.

### Government and Market

The objective of this course is to acquire an in-depth understanding of the economic roles of government in a modern market-based society. We seek to understand what governments should do (or should not do), what should be left to the market and to private individuals, and what would be the consequences of government policies. This course will help you to apply the principles and knowledge of microeconomics to current policy issues.

### Fiscal Reform in Japan

This course covers current problems related to Japan's public finance policy and the necessary reforms to address those problems. The main topics are the factors of financial deterioration, past fiscal consolidation plans, and important systems related to fiscal structure, such as the social security system, local public finance, and public loan programs. In particular, reform of the social security system, including the medical insurance and pension systems, is important for fiscal consolidation in the scenario of rapid population aging. For completeness, taxation reform in response to globalization and population aging is also discussed.

### Public Finance and Fiscal Policy

Lectures will be given on several topics that may serve for some as one of the options for their policy papers. Those topics include some countermeasures against tax avoidance, treaty shopping and tax strategy, taxpayers' right and dispute resolution mechanism, etc. They are discussed not only in the context of Japan but also in the context of some other major countries. Some relevant court cases and tax tribunal decisions are also used for analyzing those countermeasures and mechanism.

Reform of Economic Policy in Japan

This course covers issues related to the formulation of economic policy. The main topics discussed include the current state of the Japanese economy and its weaknesses. Japan’s economy has three major weaknesses: lagging in globalization, low productivity in the service sector, and inflexibility in the labor market. Knowledge of Japan’s economic structural reforms towards increased productivity and labor market reform will be useful to many Asian countries which are experiencing or will experience rapid population ageing. Also under discussion will be the role of government from the view point of economic growth.

International Trade

This course introduces the basic concepts, tools and information required for an understanding of the flow of goods across countries, i.e. international trade. We will investigate why nations trade, what they trade, and who gains from international trade. We will also analyze countries' motives for regulating international trade and the effect of regulatory policies on economic welfare.

Development Economics

This course aims to familiarize students with development problems and issues that are fundamental to developing countries.

Human Resources Management

Knowledge of Human Resource Management (HRM) has become critically important for the managers of public sector organizations. By working within a framework of academic analysis and through the practical experience of the instructor, students are expected to acquire managerial expertise and a practical sense of how public sector organizations are reformed.

Economics of Tax Policy

In this course, the students will acquire an in-depth understanding of the principles of taxation and the economics tools for analysis of tax systems and policy. The overall goal of this course is that the students will be able apply these principles and tools to work with current tax policy issues and fundamental policy reform options.

Brief Core Course Descriptions (Practicum Segment)

International Taxation of Japan

This is a practical course for international taxation. Strictly, there is no international taxation and each nation imposes taxes. However, in order to study international taxation, tax laws and tax treaties are the starting points to examine international taxation system. Tax issues arising from international transactions are categorized into taxation on nonresident and permanent establishment, controlled foreign corporation (CFC) rules (Anti-Tax Haven measures), transfer pricing and tax treaties, including elimination of international double taxation. These issues have been discussed in OECD as Base Erosion and Profit Shifting (BEPS). United Nations also has been participating in the discussions relating to issues above, advocating growing perception of developing countries. I give major emphasis in this course to transfer pricing. We will discuss transfer pricing issues practically, for example, through case studies, comparative analysis of OECD transfer pricing guidelines and Practical Manual on Transfer Pricing of United Nations and etc., considering the differences in the standing points between developed countries and emerging countries.

Practicum at the National Tax Agency

This course comprises of lectures/workshops that are offered weekly from fall through spring. The sample schedule of this course is listed below. The aim of this course is to provide tax officials with knowledge on Japanese tax systems; tax law (concerning income tax, corporation tax, consumption tax); and administration (tax examination, taxpayer service, revenue management and collection); so that they may contribute to the improvement of tax administration in their respective countries. NTA officials and NTC faculty give lectures on practical aspects of Japanese tax administration. Students will visit the Regional Taxation Bureau, Tax Office, Tax Counsel Office, etc., to broaden the knowledge they acquire in the classroom. Students are also assigned a research paper that analyzes issues/problems faced by their home country’s tax administration, with assistance and guidance from the NTC faculty. Students are thus strongly recommended to bring with them any relevant data/research materials from home.

Sample Schedule of Practicum at the NTA

Date			AM (10:00-12:30)	PM (13:30-16:00)
Oct	7	Mon		Opening Ceremony / Program Orientation / Research Paper Guidance (1) / Country Report Presentation (1)
	21	Mon	Country Report Presentation (2)	Research Paper Guidance (2)
	28	Mon	Outline of Japanese Tax System / Japanese Tax Administration	Income Tax

### Message from the Dean

GRIPS was founded in 1997 as a stand-alone national graduate university focusing on policy studies. Future policy leaders and policy researchers from around the world gather here, making GRIPS an international hub for public policy research and education.

We offer Master's and Doctoral programs covering a broad range of areas, from economics, political science, public administration, and international relations to social engineering and mathematical science, and we encourage students and faculty to engage in interdisciplinary research.

GRIPS has a very international character in every respect, with more than two thirds of our students coming from overseas, from over 110 nations to date. Our faculty is also international and includes academics, public officials, and executives from private companies. The diverse backgrounds of our faculty create an ideal environment for students pursuing policy studies.

Reflecting the diverse backgrounds of our students and faculty, GRIPS aspires for cross-fertilization of academic disciplines and their application to real policy making and policy analysis. We welcome young people from all over the world to come to GRIPS to learn more about Japan and to engage in productive communication with each other. GRIPS' mission is to train and educate young, talented people to become national leaders with a genuine sense of social responsibility.

The Public Finance Program is an integral part of this mission. I hope you will join us.

Dean and Vice President  
Mikitaka Masuyama

## GRIPS at a glance

The educational mandate of GRIPS is to cultivate high-level policy professionals and researchers. Our degree programs are designed to train students to envision a wide range of solutions to various policy issues.

<b>OUR MISSION</b>	<ul style="list-style-type: none"><li>• Cultivate future leaders in policymaking</li><li>• Serve as an international center for policy research</li></ul>
<b>STUDENT LIFE</b>	<ul style="list-style-type: none"><li>• Numerous scholarships available</li><li>• Spacious campus located in the heart of Tokyo (Roppongi)</li><li>• Modern &amp; comfortable dormitories</li><li>• Global community and network (about 60 countries)</li><li>• Field trips and various cultural programs offered</li></ul>
<b>ACADEMIC</b>	<ul style="list-style-type: none"><li>• 1- and 2-year master's programs</li><li>• Integrated 5-year doctorate programs</li><li>• Various doctorate programs</li><li>• Distinguished faculty</li><li>• Classes taught fully in English</li></ul>
<b>FUTURE CAREERS</b>	<ul style="list-style-type: none"><li>• Policy-making career tracks (government official, private sector, international organizations, academia, etc.)</li><li>• Active alumni for international networking</li></ul>

## Programs offered at GRIPS for international students

For details, visit: [http://www.grips.ac.jp/en/education/inter\\_programs/](http://www.grips.ac.jp/en/education/inter_programs/)

## Brief History of GRIPS

- 1977** Graduate School of Policy Science (GSPS) established at Saitama University; the predecessor of GRIPS
- 1997** National Graduate Institute for Policy Studies (GRIPS) established
- 1999** Relocated to Wakamatsu-cho campus in Tokyo (Shinjuku)
- 2005** Relocated to current campus in Roppongi

# 3 Student Support

One unique aspect of GRIPS is our extensive support system for assisting students in their daily living. We consider this aspect of your lives to be every bit as important as your academic life, especially for foreign scholars unfamiliar with Japan. As international students have comprised, on average, about 60% of the GRIPS student body over the last 20 years, we have developed comprehensive services to assist students in their day-to-day living.

The Student Office organizes orientation programs for incoming students and assists arriving international students in getting organized and settled in Japan. It also organizes a number of social events and activities, including field trips and concerts. The Student Office also functions as a hub to promote meaningful interaction and understanding between Japanese and foreign nationals.

## Faculty

GRIPS boasts a nearly 200 member faculty from a variety of backgrounds. Many of them hold doctorate degree from outside of Japan, and many have served as central and local government officials, diplomats, bankers or business executives. This enables an effective combination of rigorous academic courses complemented by professional expertise and experience.

For more on our faculty members, please see <http://www.grips.ac.jp/en/about/directory/>

## Accommodation

Accommodation is provided in the Tokyo International Exchange Center (TIEC), operated by the Japan Student Services Organization (JASSO), in GRIPS International House, or in private apartments recommended by the GRIPS Student Office.

### Tokyo Academic Park Residence Halls

In the bayside area, built in 2001 by the Ministry of Education, Culture, Sports, Science and Technology (MEXT)  
Room Types: Single, Couple, Family

### GRIPS International House I

In Nakano, built in 2009  
Room Types: Single, Couple

### GRIPS International House II

In Nakano, built in 2009  
Room Types: Single, Couple

## Resources

### Center for Professional Communication

The mission of the Center for Professional Communication is to support GRIPS students, faculty, and staff in developing effective professional communication skills and competencies needed to communicate productively in an environment of multiple stakeholders. To this end, we offer a range of instruction and support

in fundamental areas of professional communication in English and Japanese, including policy paper writing, professional speaking, grant proposal writing, and digital communications. We also provide opportunities for cultural and academic exchanges through a self-access learning center, organize seminars and special events related to all aspects of professional communication, and prepare customized materials for students and staff on academic and professional writing and language learning.

### Library

- Extensive collection of publications in the field of policy studies, collected from around the world
- Collection contains over 180,000 volumes, including reference books, statistical collections, working papers, and government documents
- Large collections of periodicals that include more than 13,000 journals, many of which are available online
- Well-trained staff are equipped to respond to research-related requests

## Facilities

### Student Rooms and IT Support Center

- Each student is provided with a study space, accessible 24 hours a day
- A computer help desk is open to all students during regular working hours

### Health Services Center

- In-house health clinic
- Nurse on duty daily, doctor available several days a week
- Provides medical advice, basic medical examinations
- Will refer to an appropriate hospital or specialist when necessary

### Fitness Center

- Running machines and training equipment
- Showers and washing machines
- Free use by students, faculty, and staff

### Tea Ceremony room

### Prayer room

# 4 Admissions

In 1987, the World Bank, with funding from the government of Japan, established the World Bank Graduate Scholarship Program, now known as JJ/WBGSP. The GRIPS Public Finance Program is one of the Partnership Programs that have been supported by the JJ/WBGSP since 1997. Each year, the program awards scholarships to four individuals from the World Bank's Part 2 member countries (eligible to borrow) to undertake graduate studies at GRIPS. Although the number of admissions is limited, the program may also admit students who obtain another source of funding (i.e other than the JJ/WBGSP scholarship), including scholarships provided by the student's home country.

## Eligibility Criteria

Before you apply for GRIPS, please carefully read the full description of eligibility criteria on the Public Finance Program web page at [http://www.grips.ac.jp/en/education/inter\\_programs/finance/](http://www.grips.ac.jp/en/education/inter_programs/finance/). Details of the JJ/WBGSP scholarship are also available on that page.

Irrespective of the funding source, to be eligible for admission to the Public Finance Program (Tax Course), the applicant must meet the following criteria:

1. Have a bachelor's degree or its equivalent from a recognized, accredited university of the highest standard.
2. Be proficient in English (a minimum test score of TOEFL iBT 79, IELTS Academic 6.0 or its equivalent).
3. Be a full-time government tax official from a developing country.
4. Have at least 3 years' work experience in tax policy and administration in his/her home country by the time of the GRIPS application deadline.
5. Show promise of continuing his/her career in tax policy and administration.

## For Those Seeking a JJ/WBGSP Partner Program Scholarship

Those seeking a JJ/WBGSP Partner Program scholarship must first apply for admission to GRIPS. GRIPS will make a short list of candidates and send it to the World Bank for the final selection. The short listed-candidates will be required to submit online applications directly to the World Bank.

Additional Criteria for JJ/WBGSP Scholarship	Scholarship Coverage
<ul style="list-style-type: none"> <li>• Be a national of a World Bank member country that is eligible to receive Bank financing</li> <li>• Have never before received any scholarship funding towards a graduate degree or its equivalent from sources funded by the government of Japan</li> </ul>	<ul style="list-style-type: none"> <li>• Monthly stipend: JPY152,000</li> <li>• Application fee, admission fee, and tuition</li> <li>• An economy-class air ticket from your home country to Japan upon enrollment at GRIPS and an economy-class air ticket from Japan to your home country upon completion of your studies at GRIPS</li> <li>• Travel allowance: USD500 equivalent upon arrival, USD500 equivalent upon completion of your study</li> </ul>
<p>For full description, please refer to the Public Finance Program web page at <a href="http://www.grips.ac.jp/en/education/inter_programs/finance/">http://www.grips.ac.jp/en/education/inter_programs/finance/</a></p>	

## How to Apply

We accept applications for the Public Finance Program (Tax Course) online at the GRIPS website. The application deadline is usually sometime in February. For details, please refer to the Admissions web page at <http://www.grips.ac.jp/en/admissions/index/>

Note: Unfortunately the World Bank has not yet informed us of the availability of the 2021/22 JJ/WBGSP. We will announce the availability on our website as soon as the WB informs us.

# 5 Alumni

One of the greatest resources and joys of studying at GRIPS is the diversity of the student community. The connections you make at GRIPS are a valuable part of your degree. The GRIPS Alumni Network will ensure they are lifetime bonds by keeping you in touch with fellow alumni and the school.

As a GRIPS graduate, you join an impressive network of around 5,000 alumni who are actively shaping future policies in more than 110 countries around the world. We offer a variety of ways to remain engaged with GRIPS and strengthen your ties with fellow alumni. These include alumni reunions, seminars, a searchable alumni directory and online networking opportunities utilizing social media such as Facebook and LinkedIn.

## Alumni of the Public Finance Program (Tax Course)

Since its launch in 1997, one hundred and eleven (111) students have graduated from the Public Finance Program's Tax Course with a Master's degree (as of September 2020). All were mid-career tax officials when first admitted into the program. The majority of JJ/WBGSP scholars who graduate return to their home countries and pursue careers in tax administration: As of September 2020, most of our graduates are still working in tax-related government agencies in their home countries.

## Voices of the Alumni

### Usman Asghar (Pakistan, 2012)

**Position:** Additional Commissioner Inland Revenue

**Affiliation:** Federal Board of Revenue, Ministry of Finance

Public Finance Program at GRIPS has been consciously designed to integrate fundamental theoretical concepts and principles of public economics with the applied knowledge of the tax department of a developed country, that is, Japan. Participants from developing countries are not only able to evaluate the underperformance of their taxation systems but their enhanced knowledge enables them to specifically identify the grey areas in their respective tax departments; institutional weakness, outdated tax policies, misplaced focus in their tax structures, low direct taxes, among others. The program also equips the participants, through courses like 'International Taxation of Japan', to face the challenges of taxation in the interconnected global economy evolved over the years. Besides challenging studies at GRIPS, students benefit from the productive interaction with their colleagues from all over the world. Overall, study at GRIPS, which is one of the leading Public Policy institutions in Asia, located in Tokyo, an economic hub which also characterizes a quintessential cultural diversity, will indeed be a memorable and rewarding experience for those who are able to get admission in the Public Finance Program.

### Tandekile Mkiwa (Zimbabwe, 2016)

**Position:** Revenue Officer

**Affiliation:** Zimbabwe Revenue Authority

Studying at GRIPS was a lifetime opportunity that I am still grateful for. The institute cultivated professionalism and punctuality throughout the program. It provided a strong academic foundation for me especially the Practicum at the National Tax College (NTC) which provided both theoretical and practical learning, as well as economics related courses. I learnt how other tax agencies are run administratively, on challenges faced in tax work and on problem solving. I enjoyed Development Economics, Mathematics for Economic Analysis, and Strategy for Economic Development as well as the NTC Practicum, especially the tax treaties practical, the most. International taxation was a new concept and an eye opener to me. Commitment and participation is needed to complete the program successfully. Besides the education side, GRIPS allows for cultural diversity. It is also classic, equipped with quite sufficient educational resources, has capable professors and administration personnel who are very responsive and a functional clinic.

### Dy Channthy (Cambodia, 2018)

**Current Position:** Deputy Bureau Chief of Immovable Property Tax Office

**Affiliation:** Deputy Bureau Chief of International Tax Law Office

GRIPS has derived me to be a potential leader in my organization (General Department of Taxation). After I graduated from GRIPS, I feel confident to be a part of policy maker in my organization. GRIPS not only provided me knowledge and skills but also a warm family. I would recommend GRIPS to all colleagues who seek a pathway to be leaders in their organizations. Keep in touch.

### Manzanares, William (Philippines, 2019)

**Current Position:** Tax Lawyer,

**Affiliation:** Bureau of Internal Revenue, Department of Finance

The world fell to its knees in the year 2020 against the deadly pandemic. No one was prepared for it. Fortunately, I was able to cope up well due to the invaluable learnings I have acquired from GRIPS. It has molded me to become a better leader and trained me how to rise above unfavorable situations. The experiences I learned from rigorous yet precious courses during my studies carried me through my career. For the academic segment, economic-oriented courses are instilled by highly distinguished and world-class Professors, Experts, and Practitioners. They will guide you to develop a critical mind in solving perennial economic problems in your own respective countries. As a tax officer, one significant aspect of the study is the 7-month practicum at the National Tax College (NTC) where decisive policies and procedures are taught and shown how they are implemented. GRIPS' program has a study-life balance. You will be engaged in several study tours around Japan showcasing culture, customs, and traditions. Likewise, since it is an international program, you will develop an international network deeply-rooted from friendship and camaraderie. GRIPS itself along with its personnel is an epitome of excellence and generosity. Lastly, studying in GRIPS is an experience of a lifetime!
