# How to Find & Obtain Research Materials

# Inter-Library Loan Service ( ILL )

## What is Inter-Library Loan (ILL)?

The Library will help you obtain materials not available at our Library from other libraries.

## Services

**Photocopy** You can obtain copies of articles or a chapter in a book. **\*Journals cannot be borrowed.**  
Obtaining copies is allowed within the limit of Copyright Law.

**Book-loan** You can borrow books for a certain period of time from other university libraries.

Up to 20 active ILL requests at a time

We may cancel the ILL requests when we already hold an excessive number of requests to operate.

## How to apply

Apply via MyLibrary. (Refer to "How to use MyLibrary")

You cannot obtain the material held at GRIPS Library.

**\*Check before applying:**

1. Search OPAC (online catalogue)
2. Search online databases
3. Search open access full texts on search engines

## Fees

**In principle, GRIPS Library pays the fee for requested materials which used for research purpose.**

We may charge the fee when it puts pressure on the ILL budget.

In addition, Fees will be charged when:

- 1) requesting express delivery of materials (charge includes normal + express delivery fees);
- 2) requesting materials available at the GRIPS Library or can be accessed for free on the Internet.

## After applying

Materials usually arrive within 1 week. You will receive an e-mail when the materials get ready.

[\[Book loan\]](#)

When borrowing books, borrowing period varies by the lending libraries: typically, 2-3 weeks.

The lending library may limit the use of the material: to use inside the GRIPS Library only, or forbidding photocopying.

Be sure to return the materials by the due date to the library counter.

[\[Photocopy\]](#)

Obtaining copies for the purpose of private study or research is allowed within the limit of Copyright Law\*.

\*It is permissible to make a single copy of a part of a work, or of all of an individual work in a periodical already published for a considerable period of time (i.e. the next volume has already been published, or three months have passed since publication).

## Other services

[Using other university libraries]

You may visit libraries of other institutions which hold the materials not available at the GRIPS Library. A prior notice and a letter of introduction from the GRIPS Library may be required upon visiting. The visitor use policy depends on each library. Ask the GRIPS Library staff when you wish to visit other libraries.

GRIPS members are able to visit the JICA, United Nations University (advanced appointment required) and Disaster Management Library and borrow books.

We are happy to help you find the materials you need.

Feel free to ask us!

**Description**  
The following article describes a study developed in the course of Theory and Practice of Design, School of Applied Arts, Polytechnic Institute of Castelo Branco, Portugal, in the academic year 2020/21. The study follows the methodologies of descriptive case study and thematic analysis. Taking as its starting point the problem of environmental protection and taking as premises that the cultural environment shapes the concept of Nature and that early childhood experiences have the potential to validate a code associated with Nature. The study aimed to study and identify codes referring to the concept of Nature in a target audience between 18 and 22 years old. The thematic analysis developed in the gathered textual descriptions, through the discovered patterns, points out that the first interaction experiences with Nature had older family members as facilitators, and the interactions took place in small cultivated areas. These results provide valuable clues on the complexity of visual communication, challenging the effectiveness of communication codes not adapted to local contexts.
