●EBSCOhost is a very useful database to search for various kinds of materials: journal articles, book reviews, e-books, and etc. EBSCOhost allows you to search several databases in a single interface. Available databases at GRIPS are:

◆ <u>Academic Search Premier</u> : a multidisciplinary database containing full texts

◆ <u>Econlit</u> : economics-specialized database

◆ <u>eBook Collection</u> : provides full texts of electronic books

●The instructor is invited from the database provider EBSCO International Inc, and will introduce you the brief outline of the database, basic searches and useful tools available in the database.

● How to apply: <u>send your name & GRIPS ID to the Library</u>: <u>lib@grips.ac.jp</u>

●Number of seats is limited.
