●EBSCOhost is a powerful online reference system for searching for various materials: journal articles, book reviews, and e-books. EBSCOhost allows you to access several databases in a single interface. Available databases at GRIPS are:

◆ Academic Search Premier : multidisciplinary research database containing full-texts articles

◆ Econlit : economics-specialized database

◆ eBook Collection : collection of full-texts of electronic books

◆ EBSCOhost Integrated Search (EHIS) : cross-searching tool for multiple databases and e-journals

●The instructor, invited from the EBSCO Information Services Japan Inc., will introduce the databases and useful tools available in the databases, and give tips for searching.

● How to Apply:

Send an email with your name & GRIPS ID to : lib@grips.ac.jp

● The number of seats is limited to 40.
