4. Companies : 5 SEC Filing

The screenshot shows the LexisNexis SEC Filings search page. On the left is a navigation menu with categories like General Searching, News, International Case Law, International Legislation, International Journals, US Legal, and Companies. The 'Companies' section is expanded, showing options like Company Dossier, Dossier Create a Company List, Dossier Compare Companies, Company Profiles, and SEC Filings. The main search area is titled 'SEC Filings' and includes a disclaimer: 'Use of this service is subject to Terms and Conditions'. The search form has several fields: 'Search For' with the value 'apple' (annotated with 1), 'in' with a dropdown set to 'Company' (annotated with 2), and a 'Search' button. Below this are two more rows for 'And' conditions, each with an 'in' dropdown set to 'Everywhere'. A 'State' dropdown is set to 'California' (annotated with 3). A 'Specify Date' section has a dropdown set to 'Previous...' (annotated with 4), a '3' in a box, and a 'Years' dropdown. A 'Select Source(s):' section (annotated with 5) contains two columns of checkboxes. The first column includes 'All SEC Filings', 'Form 8-K', 'Form 10-K' (checked), 'Form 10-Q', 'Form 20-F', 'Form 4', and 'Form 144'. The second column includes 'Annual Reports', 'Proxy Statements', 'Accompanying Exhibits', 'Prospectuses', 'Registration Statements', and 'SEC Wire'. A tip at the bottom says: 'Tip: For more search options try Edit in Power Search.' On the right side of the page, there are two additional panels. The first panel (annotated with 2) shows a dropdown menu with options: 'Everywhere', 'Company' (selected), 'Ticker', and 'Address'. The second panel (annotated with 4) shows a list of date filters: 'All available dates', 'Today', 'Date is...', 'Date is before...', 'Date is after...', 'Date is between...', 'Previous week', 'Previous month', 'Previous 3 months', 'Previous 6 months', 'Previous year', 'Previous 2 years', 'Previous 5 years', and 'Previous...' (which is highlighted).

Appendix

Connectors

Connectors

OR	Links synonyms, antonyms, alternate forms of expression, etc. Broadens search results. Words separated by OR will appear in any of the documents returned, not necessarily in the same document. For example: outlook OR forecast OR trend
AND	Links words or phrases that must appear together in the same document, no matter how close or far apart. For example: bank AND deregulate
W/N*	Locates search terms within a certain number (N) of words of each other. Does not specify word order. For example: market W/5 share (read: market within five words of share) It is particularly important to use the W/2 connector between first and last names when searching people. This will allow you to find documents including nicknames, middle names or initials, or where the person is mentioned last name first. For example: donald W/2 trump
PRE/N*	Requires both words to appear in the document, the first word must precede the second word by no more than N words.
W/S	Looks for documents with search words in the same sentence; cannot be combined with W/N or Pre/N.
W/P	Looks for documents with search words in the same paragraph; cannot be combined with W/N or Pre/N.
AND NOT	Excludes documents that contain the word or phrase following it. Use this connector with caution because it can exclude relevant documents. Always use at the end of your search. For example: (michael W/2 jordan) AND NOT basketball OR bulls * (N = 1-255)

Wild Card, Segment

Wild card

Asterisk (*)—Use the * to replace a letter or letters in a word. You can use up to seven asterisks in the same word, anywhere in the word except as the first letter. (Like the blank tile on a Scrabble board!)

For example: bernst**n = bernstein, bernstien, bernstown, etc.

Exclamation Point (!)—Use the ! to replace an infinite number of letters following a word root.

For example: legis! = legislate, legislator, legislation, etc.

Segment

	You will construct your search using the following format: segment (search term).
BYLINE	Person(s) identified as the author/reporter. For example: BYLINE (james W/2 brady)
COMPANY	Contains the name(s) of any companies discussed in the document. For example: COMPANY (kodak)
LENGTH	The approximate number of words in the BODY segment,arithmetically searchable. For example: LENGTH > 100
PUBLICATION	The name of the publication. For example: PUBLICATION (New York Times)
SECTION	Section of a news publication. For example: SECTION (editorial)

Handling as sentence for the words, use “ ”

ex) “This season’ s weather”

Precision Search Tools

Precision Search Tools

CAPS: finds instances in which at least one letter is capitalized and proves particularly useful when researching names and proper nouns.

For example: caps (visa) = Visa

ALLCAPS: locates articles in which all letters of your search term are capitalized and is especially helpful when researching acronyms.

For example: allcaps(era) = ERA

NOCAPS: retrieves articles in which your search term has no letters capitalized and ignores any acronyms, names, and proper nouns.

For example: nocaps (video monitoring) = video monitoring

SINGULAR: finds only the singular or singular possessive forms of your search term.

For example: singular (job) W/5 discriminat!

PLURAL: retrieves only the plural or plural possessive forms of your search term.

For example: steven W/2 plural (jobs)

ATLEASTN or ATLN: assists with frequency searching, allowing you to retrieve only those documents that mention your search term at least a certain number (N) of times.

For example: atleast10 (competitive intelligence OR ci)
