What is Mendeley?

Mendeley is a reference manager allowing you to manage, read, share, annotate and cite your research papers...
(Windows, Mac, Linux, iOS, Android, Web)

...and an academic collaboration network with 6 million users to connect like-minded researchers & discover research trends and statistics.

You can start with Free.
You can start with Mendeley

...forming a crowdsourced database with a unique layer of social research information.

Readership Statistics

Adding Documents: Mendeley Desktop

③ Adding Documents Manually and Attaching PDF

The screenshot displays the Mendeley Desktop application window. The 'File' menu is open, highlighting 'Add Entry Manually...'. A 'Manual entry' label points to this menu item. Below it, the 'New Document' dialog box is open, showing fields for 'Type' (set to 'Journal Article'), 'No Title', 'Authors' (set to 'Authors'), 'Journal', 'Year', 'Volume', 'Issue', 'Pages', 'Abstract', and 'Tags'. A 'Manual entry' label also points to this dialog box. In the background, a list of documents is visible, including entries by Fan, Jin; Long, Hao; Takahashi, Kazutos; and others. On the right side, the 'Details' panel is open, showing 'Author Keywords', 'Date Accessed' (2014-07-09), 'Day' (25), 'Month' (8月), 'URL' (http://www.ncbi.nlm.nih.gov/pubmed/1690...), 'Catalog IDs' (ArXiv ID, DOI, ISSN, PMID), and 'Files' (Takahashi, Yamanaka - 2006 - Induction ...). A label 'ArXiv ID、DOI、PMID can be searched' points to the 'Catalog IDs' section. Another label 'Attach PDF files' points to the 'Files' section. The status bar at the bottom indicates '1 of 14 documents selected'.

④ PDF viewer

- Annotate / highlight on PDF.

The screenshot displays the Mendeley Desktop application window. The top menu bar includes File, Edit, View, and a search bar. Below the menu is a toolbar with icons for Pan, Select, Highlight, Note, Rotate, Zoom, Fullscreen, Share, and Sync. The 'Highlight' and 'Note' icons are highlighted with orange boxes. The main area shows a PDF document titled 'Induction of Pluripotent Stem Cells from Mouse Embryonic and Adult Fibroblast Cultures by Defined Factors' by Kazutoshi Takahashi¹ and Shinya Yamanaka^{1,2,*}. The document text is partially highlighted in yellow. A yellow box labeled 'Highlight' is positioned over the highlighted text. Another yellow box labeled 'Annotation' is positioned over a yellow note bubble that says 'You can add annotations within PDF.' To the right of the document is a sidebar with tabs for Details, Notes, Contents, and Enrichments. The 'Notes' tab is selected, showing a list of annotations. Two annotations are visible, both labeled 'You' and dated 'Today 04:53 in My Library'. The first annotation says 'You can add annotations within PDF.' and the second says '日本語の注釈を付けることもできます。'. An orange arrow points from the 'Annotation' box to the first annotation in the list.

+ Save reference Add to library

Abstract

Autophagy involves de novo formation of double membrane-bound structures called autophagosomes, which engulf material to be degraded in lysosomal compartments. Atg8 is a ubiquitin-like protein required for this process in Saccharomyces cerevisiae that can be conjugated to the lipid phosphatidylethanolamine by a ubiquitin-like system. Here, we show using an in vitro system that Atg8 mediates the tethering and hemifusion of membranes, which are studied by the lipidation of the protein and reversibly modulated by the deconjugation enzyme Atg8. Mutational analyses suggest that membrane tethering and hemifusion observed in vitro represent an authentic function of Atg8 in autophagosome formation in vivo. In addition, electron microscopic analysis indicates that these functions of Atg8 are involved in the separation of autophagosomal membranes. Our results provide further insights into the mechanisms underlying the unique membrane dynamics of autophagy and also indicate the functional versatility of ubiquitin-like proteins. © 2007 Elsevier Inc. Adding Documents: Mendeley Web

⑥ Using Mendeley Suggest to find articles suggested by Mendeley (based on records on Mendeley)

The screenshot shows the Mendeley Suggest web interface. The browser address bar displays <https://www.mendeley.com/suggest/>. The navigation bar includes links for Feed, Library, Suggest (highlighted with an orange box), Groups, Datasets, Careers, and Funding. A search bar and a user profile for Hitoshi (HA) are also visible.

The main content area is titled "Articles for you" and features a list of suggested articles. The first article is "Microstructure evolution of hot-deformed Nd-Fe-B anisotropic magnets" by Liu J, Sepehri-Amin H, Ohkubo T, Hioki K, Hattori A, and Hono K, published in the Journal of Applied Physics (2014). It has 9 citations and 14 readers. The abstract states: "The microstructural evolution of hot-deformed Nd-Fe-B magnets in each stage of hot-deformation process was studied using transmission electron microscopy." Below the article, there are two buttons: "+ Add to library" and "Get full text at journal", both highlighted with orange boxes. A third button, "Show similar articles", is also highlighted with an orange box.

To the right of the article list, there is a section titled "People to follow" featuring three researchers: Masanori Shiomi, Julius Koettgen, and Jeremy Hamilton. Each researcher's profile includes a circular avatar, their name, a brief description, and a "Follow" button with a plus icon. The "Follow" button for Julius Koettgen is highlighted with an orange box. A yellow box with the text "Follow a researcher" is placed over the bottom two researchers.

At the bottom of the page, there is a link to "Show more suggestions".

Adding Documents: Mendeley Web

⑦ My Library

- You can review the imported documents in [My Library]

The screenshot displays the Mendeley Web interface. The top navigation bar includes a 'My Library' link, which is highlighted with an orange box and an arrow pointing to the 'My Library' page. The 'My Library' page shows a list of documents under the 'All Documents' tab. The documents listed include:

How to start with (Private) Group

The image illustrates the process of starting a private group on Mendeley, divided into two main steps: inviting members and accepting the invitation.

Step 1: Owner View (Inviting Members)

- The user is logged in as the **Owner** of the **Elsevier Japan test group**.
- The URL is `www.mendeley.com/groups/3732341/_/members/?invite=true`.
- A green button labeled **Invite people to join** is visible.
- An input field contains the email address `jp.pr@elsevier.com`.
- Below the input field, it says **2 invites left** and a **Send** button.
- An orange arrow points from the **Send** button to the next screenshot.

Step 2: Invited View (Accepting Invitation)

- The user is now in the **Invited** view, receiving an invitation from **Shoji Takahashi** to join the **Elsevier Japan test group**.
- The URL is `www.mendeley.com/groups/3719351/_/`.
- A green button labeled **Accept** is visible.
- A yellow box at the bottom of the page says **Start with Invite**.

Explore your research network by Mendeley – Mendeley Careers

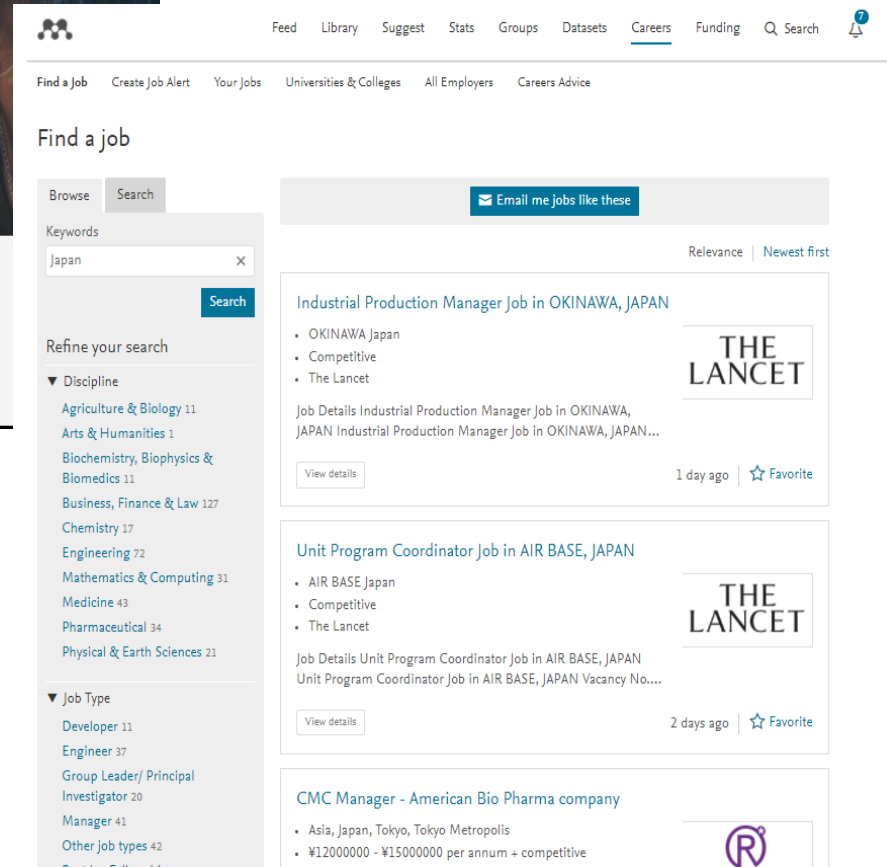

The Mendeley Careers homepage features a navigation bar with links: Find a job, Create Job Alert, Your Jobs, Universities & Colleges, All Employers, Careers Advice, and a Post a job button. Below the navigation bar, a large banner displays the text "Search 72,848 science and technology jobs on Mendeley Careers" with an orange arrow pointing to the search bar. The search bar contains the text "e.g. Biomedical Science" and "Any location". Below the search bar, a table lists various disciplines and job types with their respective counts.

Discipline	Job Type	Location
Agriculture & Biology 3413	Chemistry 5975	Medicine 10098
Arts & Humanities 536	Dentistry 958	Pharmaceutical 3016
Biochemistry, Biophysics & Biomedics 1891	Engineering 18630	Physical & Earth Sciences 2048
Business, Finance & Law 21496	Mathematics & Computing 17218	Social Sciences 1577

At the bottom of the page, there are two buttons: "Get job alerts" and "Upload your resume".

Searched with Japan

The Mendeley Careers search results page for "Japan" shows a list of job postings. The search bar contains the text "Japan". The results are filtered by "Japan". The first job listing is "Industrial Production Manager Job in OKINAWA, JAPAN" from "THE LANCET". The second job listing is "Unit Program Coordinator Job in AIR BASE, JAPAN" from "THE LANCET". The third job listing is "CMC Manager - American Bio Pharma company" from "R".
