Questions

The screenshot shows a Zoom meeting interface. At the top left, there are icons for a help menu and a green checkmark. At the top right, a button labeled "全画面表示の終了" (End Full Screen View) is visible. The main area of the screen is black with the text "Hori, Katsuhiko..." in white. At the bottom left, there is a link "オーディオ設定 ^" (Audio Settings ^). At the bottom center, a "Q&A" icon (two speech bubbles) is circled in red. At the bottom right, there is a red button labeled "退出" (Exit). A yellow text box on the right side of the screen contains the text: "• Please type your questions on [Q&A] box". An orange arrow points from this text box to the circled "Q&A" icon.

The screenshot shows the Scopus search interface. The 'Scopus' logo is in the top left. The navigation bar includes 'Search' (underlined), Sources, Alerts, Lists, Help (with a dropdown arrow), and SciVal (with an external link icon). The main heading is 'Document search'. Below this, there are radio buttons for 'Documents' (selected), 'Authors', and 'Affiliations', followed by a link to 'Advanced'. The search bar is labeled 'Search' and contains the text 'E.g., "Cognitive architectures" AND robots'. To the right of the search bar is a dropdown menu labeled 'Article title, Abstract, Keywords'. Below the search bar is a '> Limit' link. At the bottom right, there is a 'Reset form' link and a 'Search' button with a magnifying glass icon.

What is Scopus? - Comparison 2 Abstract & Citation Database 10

What is Scopus? - Comparison 3 Other Citation database

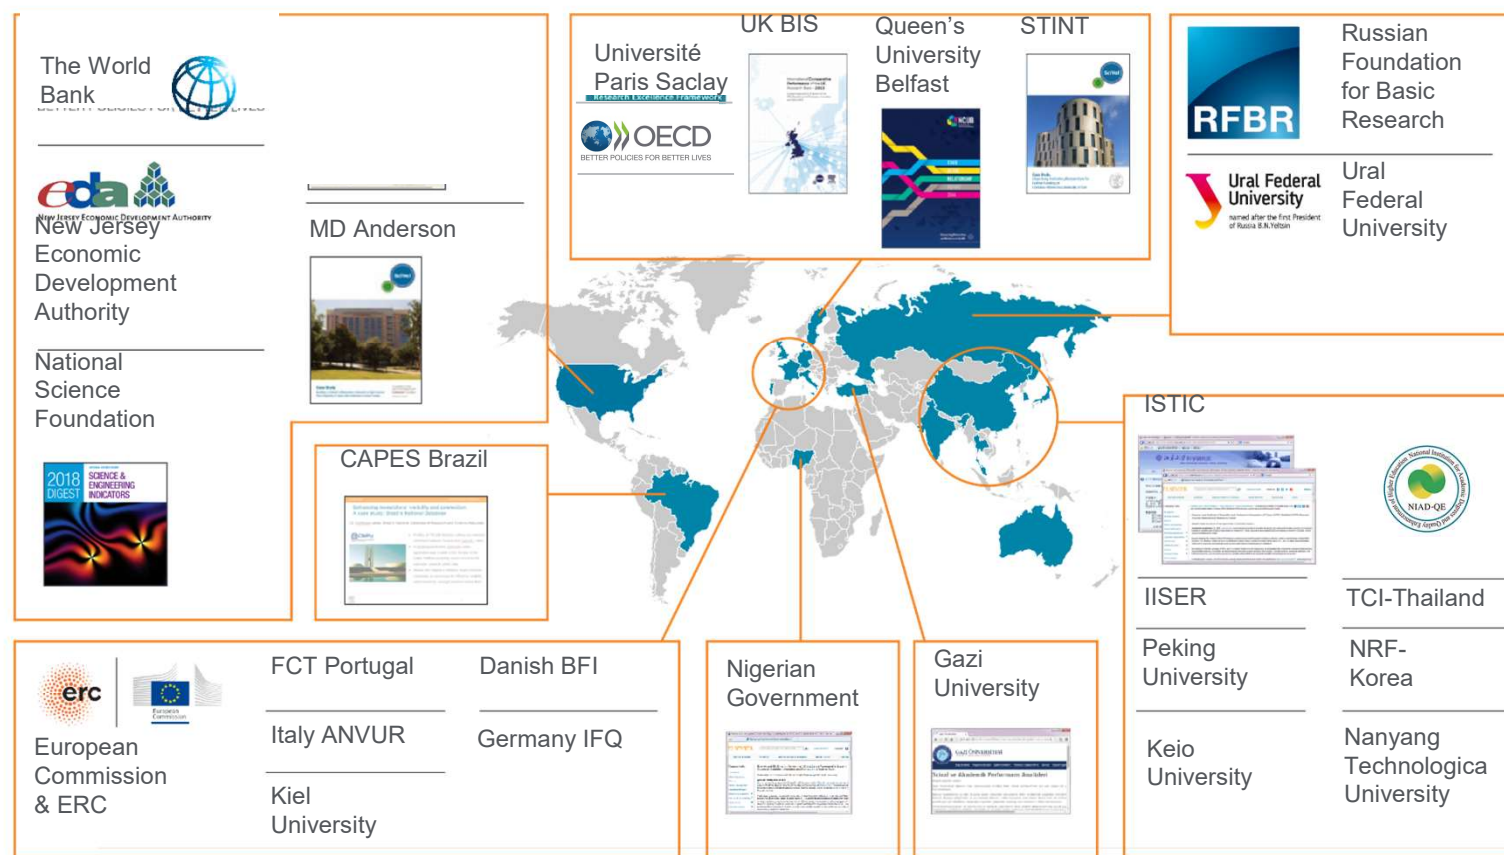

Scopus is a source-neutral abstract and citation database curated by independent subject matter experts.

Scopus places powerful discovery and analytics tools in the hands of researchers, librarians, institutional research managers and funders.

What is Scopus? Scopus is the Gold Standard:

Evaluation, ranking, reporting, landscape analysis and other strategic efforts

Rankings organizations

The screenshot shows the Scopus document search interface. The main heading is "Document search". Below it, there are search mode options: ☒ Documents, ☐ Authors, ☐ Affiliations, and a link to [Advanced](#). A yellow box labeled "Select search mode" points to these options. Below the search mode options is a search input field with the placeholder text "Search terms" and an example: "E.g., 'Cognitive architectures' AND robots". A yellow box labeled "Search terms" points to this field. To the right of the search input field is a dropdown menu for search fields, currently set to "Article title, Abstract, Keywords". A yellow box labeled "Search fields" points to this dropdown. Below the search input field is a button labeled "> Limit". A yellow box labeled "Date range and Document type" points to this button. To the right of the search input field is a button labeled "Search Q" with a red box around it. A yellow box labeled "Search fields" also points to the dropdown menu. At the bottom of the page, there is a footer section with "About Scopus", "Language" (with links to switch to Japanese, Chinese, or Russian), and "Customer Service". A yellow box labeled "Switch to Japanese, Chinese, or Russian user interface" points to the "Language" section. The Elsevier logo is at the bottom left.

② Search results (Link to Articles / Authors / Titles)

The screenshot shows the Scopus search results page for the query 'coronavirus'. The page displays 66,749 document results. On the left, there is a sidebar for refining results with filters for Access type, Year, Author name, Subject area, Document type, Publication stage, and Source title. The main content area shows a list of documents. Three yellow boxes with colored borders are overlaid on the table to highlight linking options: a red box for 'Link to Articles', a blue box for 'Link to Authors', and a green box for 'Link to Sources (titles)'. The table has columns for Document title, Authors, Year, Source, and Cited by.

	Document title	Authors	Year	Source	Cited by

Evaluation of thermal stability in deep geological repository and nuclear criticality safety of spent nuclear fuel vitrified in iron phosphate glass

Won Lee, C., Gyun Shin, S., Uk Kye, Y., Heo, J.

2020

Annals of Nuclear Energy
136,107055

0

Hide abstract

Full Text

View at Publisher

Related documents

© 2019 Iron phosphate glasses with low melting temperatures of ~1300 °C were developed to immobilize spent nuclear fuels (SNFs). The glasses have densities of ~3.15 g/cm³ and glass transition temperatures of ~540 °C that are high enough to endure the temperatures in geological repositories. The waste loading of CeO₂ in the glass was ~21.92 wt%, which corresponds to ~30.38 wt% of UO₂ at the same molar ratio. Normalized elemental releases from the product consistency test were well below the regulated limit of 2 g/m². Effective neutron multiplication factor *k*_{eff} was 0.755, which is below nuclear criticality safety regulation (*k*_{eff} = 0.95). Vitrified SNF occupies one-eleventh of the repository space compared to direct disposal of the same amount of UO₂, excluding left-over low-level wastes.

④ Search results (Alerts, Refine)

The screenshot shows the Scopus search results page for the query 'TITLE-ABS-KEY (coronavirus)'. The page displays 66,749 document results. Annotations include:

- A yellow box titled 'Save search (login required)' and 'Search Alert / RSS' with the text 'Notify by e-mail when new articles matching the search query are loaded on Scopus (login required) OR deliver to RSS reader'. An orange arrow points from the 'Set alert' button to this box.
- A yellow box titled 'Add search terms' is positioned over the 'Search within results...' input field.
- A yellow box titled 'Check breakdown of results and refine results' points to the 'Refine results' sidebar, which is highlighted with an orange border. The sidebar lists various filters: Access type, Year, Author name, Subject area, Document type, Publication stage, and Source title.

The search results table shows the following entries:

	Document title	Authors	Year	Source	Cited by
<input type="checkbox"/>		Chen, Q.	2021	Frontiers of Environmental Science and Engineering 15(3),35	0
<input type="checkbox"/>	2 Transcriptome and coronavirus: New hope and therapy	Koriem, K.M.M.	2021	Biointerface Research in Applied Chemistry 11(2), pp. 9541-9552	0

Additional interface elements visible include the Scopus logo, navigation links (Search, Sources, Lists, SciVal, Quick Link Test), a 'Create account' button, and a 'Refine results' sidebar with 'Limit to' and 'Exclude' options.

③ Field Weighted Citation Impact & Citation Benchmarking

Field-Weighted Citation Impact (FWCI) shows how well cited this article is when compared to similar articles. FWCI greater than 1.00 means the article is more cited than expected according to the average. It takes into account the year of publication, the document type, and disciplines associated with its source.

Citation Benchmarking shows how citations received by this article compare with the averages for similar articles. 99th percentile is high, and indicates an article in the top 1% globally. It takes into the account date of publication, the document type, and disciplines associated with its source.

Check journal metrics

41

① Journal metrics

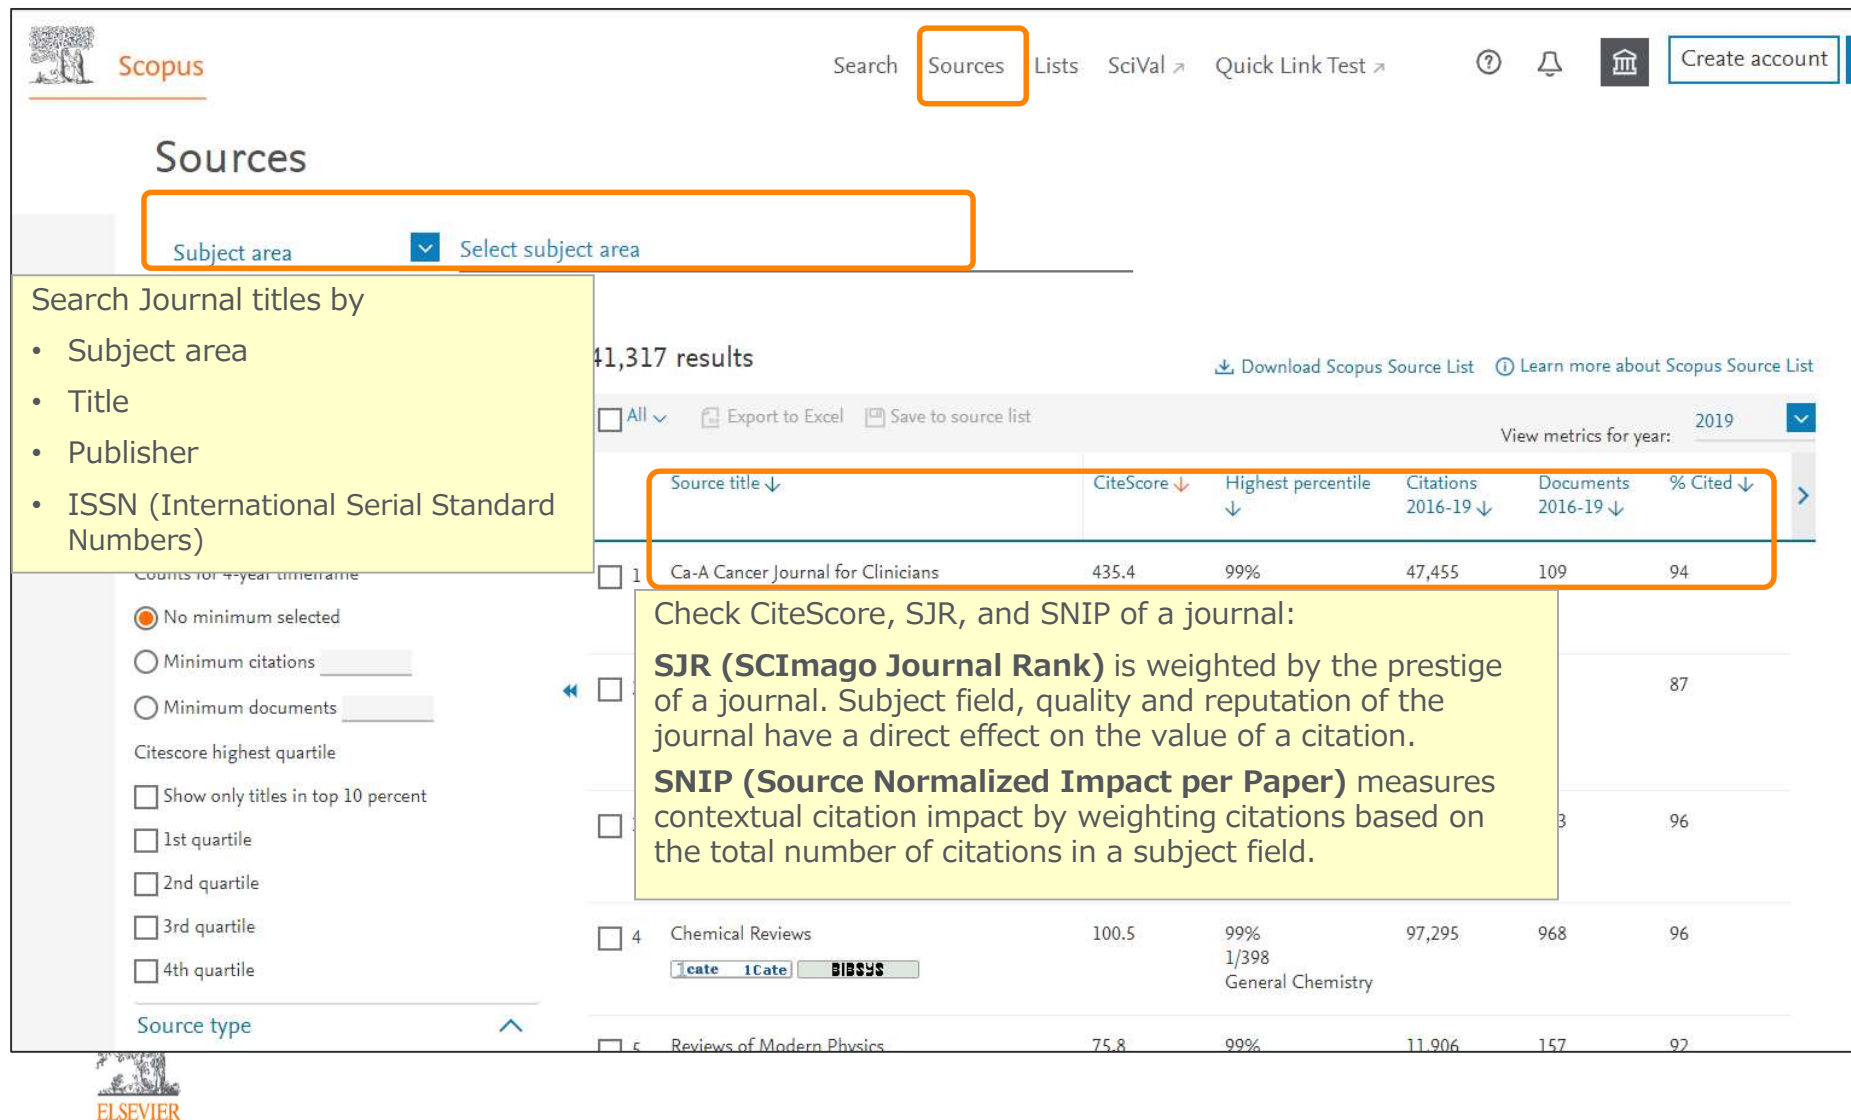

The yearly average number of citations to recent articles published in a journal.

	CiteScore (released in December 2016)	Impact Factor
Vendor	Elsevier	Clarivate Analytics (used to be Thomson Reuters IP & Science)
Database	Scopus	Web of Science
Coverage	4 years	2 years or 5 years
Document Types	A = B All document types	A ≠ B A = All document types B = Articles, Reviews, Proceedings papers

Check journal metrics

② Search for a source

The screenshot shows the Scopus Sources page. The 'Sources' tab is selected in the top navigation bar. A search filter for 'Subject area' is highlighted with an orange box. Below the search bar, a dropdown menu lists search criteria: Subject area, Title, Publisher, and ISSN (International Serial Standard Numbers). The main table displays 41,317 results. The first row is highlighted with an orange box and contains the following data:

Source title	CiteScore	Highest percentile	Citations 2016-19	Documents 2016-19	% Cited
Ca-A Cancer Journal for Clinicians	435.4	99%	47,455	109	94

Below the table, a yellow box contains the following text:

Check CiteScore, SJR, and SNIP of a journal:

SJR (SCImago Journal Rank) is weighted by the prestige of a journal. Subject field, quality and reputation of the journal have a direct effect on the value of a citation.

SNIP (Source Normalized Impact per Paper) measures contextual citation impact by weighting citations based on the total number of citations in a subject field.

The bottom of the page shows the Elsevier logo.

Improved CiteScore methodology
CiteScore 2019 counts the citations received in 2016-2019 to articles, reviews, conference papers, book chapters and data papers published in 2016-2019, and divides this by the number of publications published in 2016-2019. [Learn more >](#)

CiteScore 2019

58.7 = $\frac{100,190 \text{ Citations 2016 - 2019}}{1,707 \text{ Documents 2016 - 2019}}$
Calculated on 06 May, 2020

CiteScoreTracker 2020

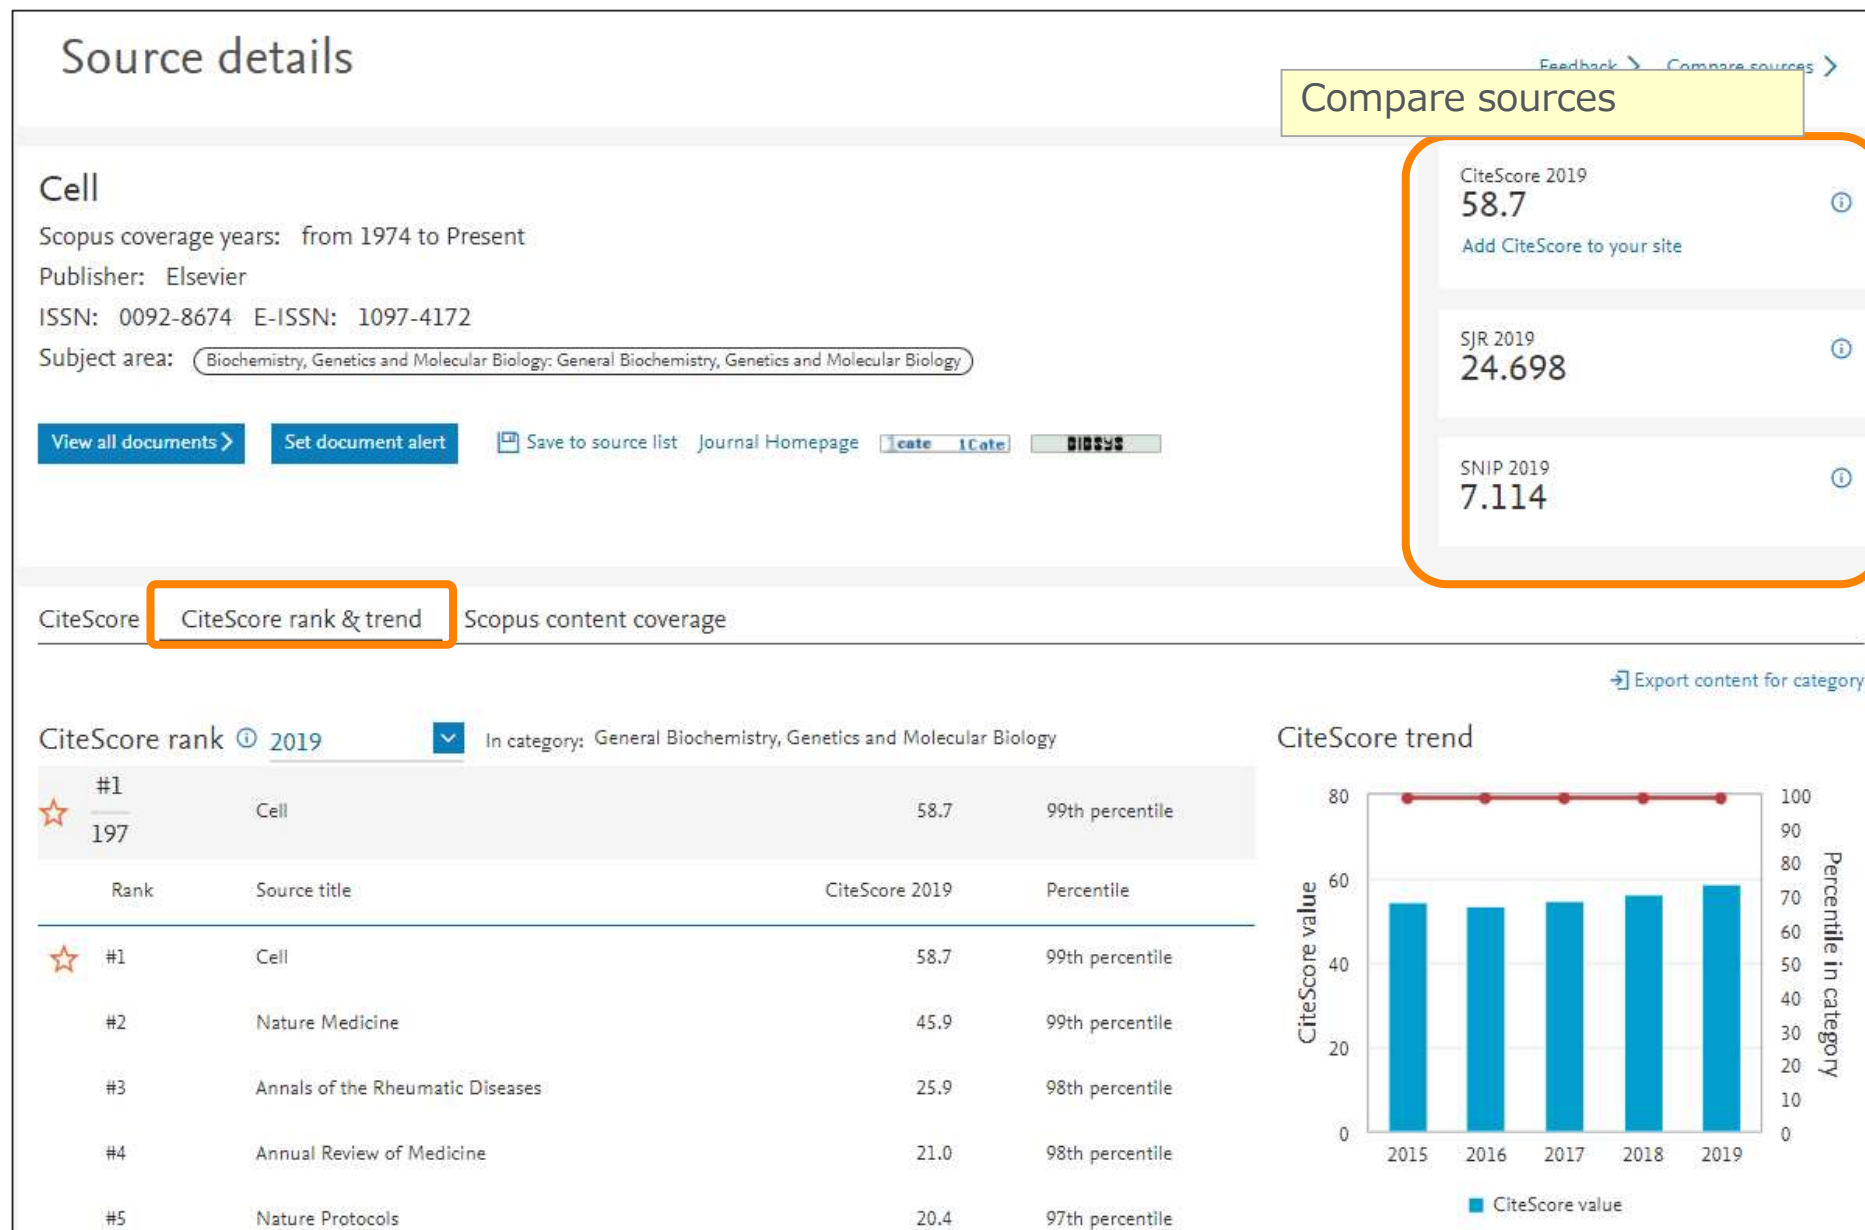

53.5 = $\frac{86,507 \text{ Citations to date}}{1,616 \text{ Documents to date}}$

The image shows the Scopus Document search interface. At the top, there is a navigation bar with the Scopus logo, a search bar, and links for Sources, Lists, SciVal, and Quick Link Test. On the right side of the navigation bar, there are buttons for 'Create account' and 'Sign in'. Below the navigation bar, the main section is titled 'Document search'. It includes a search bar with a placeholder text 'Search' and a dropdown menu for 'Article title, Abstract, Keywords'. There are also radio buttons for 'Documents', 'Authors', and 'Affiliations', and a link for 'Advanced'. A search tip icon is also present. An orange arrow points from the 'Create account' button in the navigation bar to the 'Register' form on the right.

※ By user registration, you can use personal features such as e-mail alerts. You can use the same username/password for ScienceDirect and Mendeley.

Your e-mail address is your username

The image shows the Elsevier Register form. At the top, there is the Elsevier logo and a close button. Below the logo, the title 'Register' is displayed, followed by the instruction 'Create password to register'. The form includes input fields for 'Email', 'Given name', 'Family name', and 'Password'. Below the 'Password' field, there is a note: 'Choose a unique password with minimum 8 characters. Include at least 1 number, a mix of lowercase and uppercase letters and 1 symbol to make your password strong.' There are three input fields for the password. Below the password fields, there is a checkbox for 'Stay signed in (not recommended for shared devices)'. At the bottom, there is a 'Register' button and a link for 'I already have an account'.
