SEARCHING

EBSCOhost

Features & Functionality At-a-Glance

- CURRENT SEARCH CRITERIA**
Quickly view your current search selections and update your search results by removing selected items.
- LIMITERS**
Refine a search without navigating away from the results page.
- FACETS**
Filter search results by source type, related subjects and more.
- SEARCH HISTORY**
View and combine past search terms and set up alerts to be notified of new articles. Search History is located directly above the results list and can be expanded and viewed in conjunction with the current results list.
- SORT RESULTS**
Sort results by relevance, date, author or source.
- CREATE A MY EBSCOHOST ACCOUNT**
Create a personal account to download EBSCO eBooks™, store your favorite articles to a personal folder, and set your user preferences. EBSCO never asks you for more than your name and email address.
- PREVIEW AND ADD TO FOLDER**
Click on icons to preview or add a record to your folder without leaving the results page. Items added to your personal folder appear in the right column.
- SHARE**
View alerting, linking and bookmarking options from this menu.
- RELATED IMAGES**
Preview thumbnail images from full-text articles and EBSCO's image Collection.

The screenshot shows the EBSCOhost search results interface. Callout 1 points to the search bar and filters. Callout 2 points to the 'Refine Results' sidebar. Callout 3 points to the 'Source Types' filter. Callout 4 points to the search results list. Callout 5 points to the 'Sort' dropdown. Callout 6 points to the 'Page Options' dropdown. Callout 7 points to the 'Add to Folder' icon. Callout 8 points to the 'Share' icon. Callout 9 points to the 'Related Images' section.

Viewing the Detailed Record

The screenshot shows the detailed record for the article 'New Food for Polar Bears'. Callout 1 points to the 'Full Text Links' section. Callout 2 points to the 'Subject Terms' section. Callout 3 points to the 'Tools' menu on the right side of the page.

- FULL TEXT LINKS**
The complete article is available in HTML, PDF, or both.
- SUBJECT TERMS**
Click a subject term for a new list of results.
- TOOLS MENU**
Add to Folder to store the record in the My EBSCOhost folder in order to print/save/email multiple references at once.
Print the reference.
Email the reference - if EBSCOhost provides the full text for the article, the full text will be attached to the email.
Save the reference.
Cite the source in various referencing styles including APA, Harvard and MLA.

Export the reference to a bibliographic management solution such as EndNote, RefWorks or Zotero.

Create a Note about the reference to store in the My EBSCOhost folder.

Retrieve a Permalink to the reference. This is a persistent URL you can embed in an email or a web page or save to your bookmarks.

Listen to HTML articles using EBSCO's Text-to-Speech feature.

Bookmark or share the reference using a wide range of tools including Facebook, Twitter and Blogger.

The screenshot displays the GRIPS library website. At the top, a yellow banner contains the text: "Welcome, Guest. Sign in to your institution for full access to your library's resources." This banner is highlighted with a red rectangle. Below the banner is a dark blue navigation bar with links for "New Search", "E-Journals/E-Books", "Library Home", "GRIPS Home", "OPAC", and "Preferences". The main content area features the GRIPS logo, a search bar with the text "social media and advertising", and a "Search" button. A green arrow points from the search bar area towards the login overlay. The overlay is a white box with a blue border containing the text: "Welcome to GRIPS Off Campus Access Service (EZproxy)", "Please log in to begin your secure session.", "Username:" followed by an input field, "Password:" followed by an input field, and a "Login" button. The background shows search results for "social media and advertising" with a "Refine Results" sidebar and a "Research Starter" section.

You can also login to EZproxy from the guest banner displayed on top of the screen.

The screenshot shows the EBSCO Discovery Service search results page. At the top, there are navigation links: New Search, E-Journals/E-Books, Library Home, GRIPS Home, and OPAC. On the right, there are links for Sign In, Folder, and Preference. The search bar contains the keyword 'business management' and a 'Search' button. Below the search bar, there are links for Basic Search, Advanced Search, and Search History. The search results are displayed as 'Search Results: 1 - 20 of 62,126,490'. On the left side, there is a 'Refine Results' section with 'Current Search' and 'Find all my search terms' (business management). There are also 'Expanders' for searching within full text and applying equivalent subjects. A 'Limit To' section allows filtering by Full Text, Peer Reviewed, and Publication Date (1004 to 2020). The main search results area is highlighted with a red box. It features a 'RESEARCH STARTERS' banner for 'Business management: Research Starters Topic.' with a 'more' link. Below the banner, the first search result is listed: '1. Community project implementation issues in the Kingdom of Eswatini : a business management perspective' by Bimha Happyson, published in the Journal of Management & Administration in June 2019. The result includes a 'Periodical' icon and a list of subjects.

If a **Research Starter** is available for your search term, it will appear at the top of the search results list. Designed to enhance the research experience, Research Starters include links to relevant articles, images, videos, and audio clips. The content is curated from a variety of high quality sources including Salem Press, Encyclopedia Britannica, and others.

Simply click the '**More**' link for a topic overview.

The Effect of Monetary and Fiscal Policy on Bond Mutual Funds and Stock Market: An International Comparison

Author: Qureshi, Fiza; Khan, Habib Hussain; Rehman, Ijaz ur; Qureshi, Saba; Ghafoor, Abdul

Author Affiliation: University of Sindh; International Islamic University; Al Falah University; University of Sindh; Bahria University

Source: [Emerging Markets Finance and Trade](#), October 2019, v. 55, iss. 13, pp. 3112-30

Publication Date: October 2019

Abstract: This study examines the relationship between bond fund flows, stock market returns and financial policies in developed and developing economies. The findings suggest a bidirectional (negative) relationship between bond flows and market returns in the presence of fiscal and monetary policy for developed countries. However, in the case of developing countries, bond flows follow the previous performance of market returns. Moreover, an expansionary monetary stance has a negative impact on bond flows while an expansionary fiscal policy exerts a positive influence on them. In addition, bond funds flourish in times of low economic activity in both developed and developing countries.

EDS Relevance Matching Priorities

-How is relevance ranking determined in EDS?-

The system has the following priorities and has no bias toward content from any provider:

1. Match on subject headings from controlled vocabularies
2. Match on article titles
3. Match on author keywords
4. Match on keywords within abstracts
5. Match on keywords within full text

Exact Matches: Exact matches are favored over partial matches – considering also the field in which those words appear (abstract vs. full text vs. title, etc.)

Density: Matches across multiple metadata fields are favored for relevance scoring (more is better). The scoring influence of repeat terms within individual metadata fields is minimized.

Value Ranking:

Recency / Currency

Recently published content is scored higher for relevance than older content

Document Types

Certain document types are weighted higher than others for relevance scoring, for example: “review articles” are valuable, while “book reviews” are not.

Document Length

Documents of a more substantial length have a heavier weighting (e.g., a $\frac{1}{4}$ page article is considered less valuable than a 4 page research paper)

The screenshot shows a library website interface. On the left, there is a calendar for October 2021 with a legend indicating opening hours: yellow for 10:00-17:00, blue for 10:30-15:00, and red for closed. Below the calendar is a 'MyLibrary' login section with fields for 'GRIPS ID' and 'パスワード' (password), and a 'Login' button. A red box highlights a link: 'Off-campus Access / On-campus Access with Your Own PC EZproxy'. In the center, a red speech bubble contains the text: 'EZproxy connection is required for accessing EBSCOhost databases from off campus !!'. The main content area includes a 'Search Library' section with buttons for 'OPAC', 'GRIPS Discovery Service', and 'E-Journals/E-Books', a search input field, and a 'Search' button. Below this is an 'Online Resources' section with a right-pointing arrow. The bottom part of the page shows a list of notices, including one about a 'Newspaper Database Trial' and another about 'Library services after October 2021'.

Subject Heading & Abstract

Abstract: This study uses a dynamic general equilibrium model to quantify the effects of corruption and tax evasion on fiscal policy and **economic growth**. The model is calibrated to match estimates of tax evasion in developing countries. The calibrated model is able to generate reasonable predictions for net tax rates, the corruption associated with **public investment** projects, and the negative correlation between corruption and tax revenue. The presence of corruption and evasion is shown to have significant, but not large, negative effects on **economic growth**. The relatively moderate effects help explain the absence of a robust negative correlation between **growth** and corruption in cross-country data. The model also implies that cracking down on tax evasion before addressing corruption can be a bad idea and that higher wages for **public officials** can improve
