

## **Dialogue on Health Security Overall Report**

**By Kiyoshi Kurokawa & Hiroaki Yoshida**

**GHIPP**

**April 23, 2021**

**Purpose of the Dialogue:** Facing COVID-19 crisis, we are here to ensure healthy lives and Promote well-being for all at all ages. In particular it is important to address healthcare resources and policies to prepare against health emergency crisis, through building a resilient global community. GHIPP organized a series of Global Dialogue on Health Security for strengthening global partnership through sharing knowledge and lessons learned and creating a new regional community for health resilience. Having a series of online speakers' sessions, the project focuses on building collaborative Asia-US-Japan platform for knowledge & experience sharing, and discusses how to best prepare and lead dealing with future health crises. We had very prominent speakers from the US, Australia, Japan, Switzerland, and Taiwan and we have gained accumulative audience numbers of 430 participated (through #1 through #5) and we will have 2 more speakers during March 2021. Utilizing online opportunity, GHIPP has gained broad interest from various parts of the world, including health experts, policy makers, government officials, industry leaders, academia, experts from international organizations, and GRIPS faculties and students. All videos are up on GHIPP site, and GHIPP will be publishing a report based on learnings from the discussion and presentations. GHIPP is proud of creating a knowledge platform for experts to share and learn, and GHIPP is planning to expand on this platform. Below is the list of speakers who have participated to this series

Dr. J. Stephen Morrison Senior Vice President and Director, Global Health Policy Center at the Center for Strategic and International Studies (CSIS)

Dr. Yasuharu Tokuda (Muribushi Project for Teaching Hospitals)

Dr. Jeff Kingston (Temple University Japan)

Mr. Koichi Yamada (Fujifilm Toyama Chemical Co, ltd.)

Dr. Richard Kaszynski (Stanford University)

Dr. Osamu Kunii, Head, Strategy, Investment and Impact Division (SIID) The Global Fund to Fight AIDS, Tuberculosis and Malaria

Dr. Sanjaya Senanayake (Infectious Disease Physician in Canberra and an Associate Professor of Medicine at the Australian National University (ANU) Medical School)

Ms. Laurie Garrett (Pulitzer winner & science journalist on infectious disease)

Dr. Brian Bih-Jeng Chang Honorary Secretary of WONCA, APR; Director of Brian's Family Doctor Clinic, New Taipei City

GHIPP has uploaded videos of all sessions under Video Library:

### Contents and Achievements:

**Laurie Garrett** wrote her first bestselling book, *THE COMING PLAGUE: Newly Emerging Diseases in a World Out of Balance*, while splitting her time between the Harvard School of Public Health and the New York newspaper, *Newsday*. In the 1992-93 academic years Garrett was a Fellow at Harvard, where she worked closely with the emerging diseases group, a collection of faculty concerned about the surge in epidemics of previously unknown or rare viruses and bacteria. The book was published in hardcopy by Farrar, Straus, and Giroux in 1994, and spent 19 weeks on the New York Times bestseller list. Released in paperback in 1995 by Viking Penguin, *THE COMING PLAGUE* remains in print and continues to sell vigorously.

## Global Dialogue on Health Security

**Date:** March 24, 2021

### Contents and Achievements:

We learned Taiwan’s Experience and effort to contain COVID-19 from Dr. Chang’s presentation that Taiwan’s critical approach was led by community-based clinics, Taiwan’s Medical Associations played a major role to coordinate regional associations to share critical information both clinicians as well as general public. Grassroot initiative to detect potential patients in early phase resulted successful containment of COVID-19.
